Is the present day lifestyle too busy?

By Ahmet Abdulaziz

This is a continuation of my last week's column, where I had mentioned that I like a slower and calm life.

We frequently complain of not having sufficient time in hand to finish our work. Although we all know, but still do not realise, that in fact the pace of passing time has not increased, it is still the same, as it has been for a long time. What has changed in fact is our

way of working. We have developed a habit of trying to do much more in fact than we should do.

We are simply disturbing our natural way of life, by overworking. In fact the word over-working does not explain the problem fully. We simply waste our energies by involving ourselves with unproductive and useless work. Just look around, out of 10 persons you find near you around 8 of them would be looking at the screens of their Iphones. Do you think that they are doing something productive. I am sure not even one percent of them is doing anything productive. They are either chatting with friends, or just looking at posts and comments in Facebook or other sites of the like.

How far chatting is productive, is a question that's difficult to answer. There may be some positive aspects of chatting, but I am sure there are too many negative aspects of chatting. The most important of these, in my opinion is the wastage of time, and keeping the mind busy and putting it under stress. We may give our mind a rest for these times, to re-charge it to be more productive in future.

By remaining involved in chatting and in other activities on the Iphone screen, most of us ignore

the need to rest, by the systems inside our bodies.

The present way of our lives in general does not allow us to sleep properly, and for a reasonable period of time. We keep our minds over involved and busy in important and non-important issues, that even when we sleep, our minds continue pondering about them. This situation affects the quality of our sleep, and ultimately affects our performances the next day.

Most of us put ourselves under extreme stress, by running after money. I do not deny the necessity of earning a reasonable income, but to negate the necessities of resting, just to earn a little more, is what most of us are usually are busy with. This practice is usually common among two groups of people. One is those who are poor and have to think of nothing but earning more to maintain their desired standard of living. The second group is those people who are already wealthy, but want to be wealthier.

Both of the groups put themselves under excessive stress. For both of them, life runs too quickly, because they do not find sufficient time to

spend with their families, to relax, to go out, etc etc.

We must not forget that stress in every form, is one main cause for most of the terrible illnesses of present times. So what we must try to do is to overcome the stress. We must try to reduce stress from our daily lives.

The only way to reduce stress from our lives, is to slow down our lives. We must first sort out the useless activities that we are involved in. Once done, we would be in a position to re-direct the same energies and times to be more productive in our lives. By being more productive, we would earn more. But there must be a point, where we must be able to say to ourselves - enough. We must not run after what is beyond our reach. We must work hard to achieve our goals, but the goals must be realistic and achievable, otherwise we will end up with nothing except psychological and physical sickness on our hands.

We must realise that life has not become fast, we want to do more in a short period of time. This can only be done, by using our energies. Otherwise we will keep on complaining, without getting anything for ourselves.

New AnadoluJet service from North Cyprus

Minister of Tourism and Environment Fikri Ataoğlu said that following negotiations to increase the number of flights in the country, President of Turkey, Recep Tayyip Erdogan, has ordered the permanent deployment of an aircraft of AnadoluJet to Cyprus.

AnadoluJet, which is connected to Turkish Airlines, will start its day in TRNC with a new aircraft. Ataoğlu said in a television program that he participated in the meeting, and THY-AnadoluJet will start new flights in the coming days.

Ataoğlu emphasized that they had made many attempts to increase the number of flights against the economic crisis and exorbitant prices of tickets. Studies to increase the number of flights of THY resulted in an increase from six to seven. Now there is an eighth addition, he said.

Tourism season of movement of passengers exceeded the record which is reflected in the increase of the work which has been carried out for Turkey and abroad. Tourism and promotions that have been made under the Ministry of Tourism and Environment name and Turkish Airlines increased the number of tourists coming to the TRNC following participation in the International Fair.

Ataoglu said that in general the hotel occupancy rate was 70%. In fact, looking at 5 star and luxury hotels, it can be seen that the occupancy rate is between 90% and 100%. 5-star hotels are expected to be 100% full for the winter season, based on the number of beds.

Ataoğlu stated that they have worked with the agencies to increase the occupancy rates in the village hostels and other hotels and said in the coming period, we will be sending many tourists to such places. When we achieve this, occupancy rates across the TRNC will reach 90%.

Most tourists come from England and Germany and Ataoglu said that the number of tourists from other countries is insufficient.

There is a need to bring more tourists to the country and we are constantly searching how to attract more tourists to the island. When we look at the number of beds that are available in our newly opened hotels, we need to look for new solutions to close this gap.

In January, Turkish Airlines will work together with our agencies and stakeholders to bring tourists from different countries, said Ataoğlu.

We will have bilateral talks with agencies in Scandinavian countries. We are trying to bring tourists from Scandinavian countries especially as our season and climate are attractive, because even with the coldest winter day, it feels like summer.

Our work is not limited to this. Taking into account the number of tourists coming to our country with the flights and the charter flights of the agencies, we are coming together with our stakeholders and making extensive studies.

Ataoglu said that they wanted to bring in large-body aircraft to ease

passenger flow but the existing runway is not suitable for large body aircraft and we could not take this risk. He also said that the new airport will be completed by the end of 2019 and at this time the runway will be suitable for large-body aircraft which will be able to come to the new airport and will also be reflected in ticket prices.

Speaking about boutique hotels opened in Nicosia and Alsancak recently with the participation of the public, Ataoğlu said “We are especially focused on our work in the city walls. As a Ministry, we give credit to this place. When we look at all the restored buildings they are all full and everyone is happy.”

Ataoglu also explained about the employment of a local labour force and said:

We opened OTEM which had been closed for many years in order to increase domestic employment in tourism. These young people will have a guarantee after completing their studies at OTEM. In OTEM, we are trying to eliminate the deficit which we have with qualified personnel.

There are around 19% of the young unemployed in our country. We continue our efforts to adapt these citizens to tourism.

If a salary of 3,000TL is given to a person who is a citizen of TRNC, we will pay 1000TL for the high school graduate and 1500TL for the university graduate. In other words, while receiving 3,000TL, this can be increased to a salary of 4,000TL with our contributions. This will encourage young people to participate in the tourism sector.

Özersay: “Status quo harms the Turkish Cypriot side”

Deputy Prime Minister and Minister of Foreign Affairs Kudret Özersay said that the status quo continuing in Cyprus harms the Turkish Cypriot side.

In his statement to the Anadolu Agency, Özersay said that following the Cyprus Conference which failed in Crans-Montana, Switzerland, in July 2017, the UN Secretary General Antonio Guterres has taken a step that gives an opportunity to the sides to think again.

Adding that the negotiations continuing for 50 years with failure should be questioned, Özersay said that Turkey and the TRNC made a sincere evaluation, and we, as the Turkish Cypriot side, do not want the status quo to continue.

Expressing that integration with the world is prevented due to the status quo, Özersay said that primarily, we prefer lifting of the status quo through a comprehensive solution, and if the Greek Cypriot side impose obstacles for a comprehensive solution, we want to prevent the continuation of the status quo in different ways.

“As long as the status quo continues, it harms the Turkish Cypriot side” Özersay stressed.

Furthermore, Özersay said “the Greek Cypriot side’s call for the negotiation process to resume where it left off is actually a continuation of the status quo”.

Touching upon the report which is being prepared by the UN Secretary-General's special temporary envoy Jane Holl Lute

this month, Özersay said that it would be wrong to think that the report to be presented to the UN will evaluate the 50-year-old ethnic problem and come to a point where it will lead to the solution of the Cyprus problem.

Emphasizing that the Turkish Cypriot side, with Turkey, had always put forward their good intentions in order to find a comprehensive solution so that they can be integrated into the world, Özersay said: “The Turkish Cypriot side does not want to enter into a new negotiation process that will not reach an outcome.

It is time to stop and question what is going on.”

Indicating that there is a wind of cold war between 5 permanent members of the UN Security Council, Özersay said that it is not realistic to start a new negotiation process in such circumstances.

Özersay also added that if the process which had been tried for 50 years did not work, they should sit and negotiate sincerely with all relevant parties and the Greek Cypriot side and discuss what else can be tried?

“In the meantime, we should try to develop a concrete relationship and make an effort to create trust between the two sides on every issue, especially on the economic issue” said Özersay.

Touching upon the UN military camp that is located in the Gazimağusa area, Özersay said that as the area has developed, the camp has remained within the city

where hundreds of people are now residing and that the location of the camp had become a problem.

Özersay pointed out that they had met with the UN officials and said: “There are helicopters which land and take off at that camp and there is continuous movement of military trucks. The camp is currently in an urban area. This needs to change.

We as the TRNC Foreign Ministry informed the UN about this and are waiting for a positive reply in view of the fact that the circumstances in the area have changed.

Özersay also pointed out that the site could be transformed into a green area or a city park and this is not an issue related to the mission of the UN Peace Forces and it is a general issue of the needs of the country and the people.

Pointing out that it is ‘unlawful’ to open tenders to foreign companies for natural gas exploration activities at the 7th parcel within the so called Exclusive Economic Zone by the Greek Cypriot side, Özersay said that this is an initiative to usurp the rights of the Turkish Cypriot people.

Özersay continued: “If other companies step into the 7th parcel we, as the TRNC and the Republic of Turkey, will not allow this to happen.

We will also conduct exploration activities in all areas where Turkish Cypriots have rights.

The Turkish Cypriot side will also start to do its own exploration activities with Turkish Petroleum Corporation which is authorised for this.

Akinci wishes to meet Anastasiades after 15 October

President Mustafa Akinci stated that he wishes to meet with Greek Cypriot Leader Nikos Anastasiades after 15 October when the Cyprus report will be submitted to the UN General Council.

Akinci received the leaders of the TRNC coalition government yesterday (9th October).

In his statement to the press following the meeting, Akinci said that he also met with the UN Secretary General's Special Representative to Cyprus, Elizabeth Spehar, and they discussed the opening of Derinya and Aplıç gates as soon as possible.

Furthermore, in his statement to the press, Prime Minister Tufan Erhürman said that in recent days, the Greek Cypriot side stresses a 'loose' or decentralised federation, which has been a long-standing belief held by Anastasiades but today, a strong wing federation model has been on the agenda.

Expressing that the reason of moving away from a strong centralized federation is the issue of political equality, Erhürman said that the Greek Cypriot side has created an expression of a new model due to not being able to explain the issue of political equality to their people.

Uluçay met with Mandviwalla

TRNC Speaker of the Assembly Teberrüken Uluçay met with Pakistan Senate delegation Chairman Saleem Mandviwalla.

Uluçay thanked Mandviwalla for the support to the Turkish Cypriot people at international platforms.

Recalling the decision taken in the period after 2004 by the Islamic Conference Organization and the current Islamic Cooperation Organization, providing for supporting the Turkish Cypriot people, Uluçay asked for his interlocutor's support the issue of putting this decision into force at international platforms.

During the meeting, Uluçay brought onto the agenda issues such as the increase in the number of Pakistani students in the TRNC and the cooperation with Pakistan in the field of trade.

Uluçay also raised the issue of launching sports and cultural activities between the two countries and Mandviwalla for his part expressed that they will continue to be the voice of the Turkish Cypriot people both in the Islamic Cooperation Organization and other international meetings and added that they could launch efforts on the issue of joint trade activities.

Uluçay: "We maintain the will of the solution"

The Speaker of the TRNC Assembly Teberrüken Uluçay stated that a result-oriented, time-tabled, short and intensive new negotiation process can end the Cyprus problem.

In his speech at the ongoing 3rd Meeting of the Speakers of Eurasian Countries' Parliaments in Antalya, Uluçay emphasized that the Turkish Cypriot side maintained the will of the solution with determination and

continued to work with this hope and determination. Reminding that despite the efforts of the Turkish Cypriot side, no agreement was reached at the five-party conference last year in Crans-Montana, Uluçay said that the reconciliation policy shown by the Turkish Cypriot side on the most sensitive issues such as land adjustment, guarantee and security issues have been left unanswered.

"It is seen that the Greek Cypriot side has not been able to

demonstrate seriousness and is also devoid of the required political will in respect of concluding decades of negotiations to bring our island to peace and tranquillity. It is the responsibility of all of the international community to explain to the Greek Cypriot side that the comfort zone provided by the status quo is not sustainable and that the policy of conflict that they insist on exhibiting has risk not only for the island but also for our region" Uluçay said.

Driving safely in Northern Cyprus

By Chris Elliott.....

Most drivers in Northern Cyprus will consider they are perfect drivers and other drivers are not but what makes a careful and considerate driver?

Spatial awareness, consideration of other road users and also obeying the speed limits and other regulations.

Increasingly we are finding very comprehensive and helpful

information on TRNC Ministerial websites and the Road Safety poster shown under can be found on the Ministry of Public Works and Transportation website.

Clearly if all road users adhered to

the advice and regulations given in this poster then the death rate and accident levels would fall dramatically.

This poster is also published in Turkish..

All passengers must fasten seat belts: TRNC traffic safety laws require that all passengers must be restrained during a trip. Children below 150cm are not allowed to sit in the front seat and must be restrained with an appropriate child safety system. Kalle Trautmann - Rest in Peace

Introduction

By Margaret Sheard ...

We were so sad to hear the news that Kalle Trautmann had passed away, peacefully in his sleep, following an evening with friends on 2nd October during a visit to Istanbul with his wife, Heidi.

Kalle's funeral was held at the Girne International Cemetery on Sunday 7th October and a large number of people attended to pay their respects and give support to Heidi at a time of the sad loss of her husband and best friend.

Although we have known Heidi for many years, we did not have a lot of contact with Kalle but are aware of the wonderful support he always gave her, not only in their life together but also in the world of art and culture which Heidi is passionate about and has done so much to promote in North Cyprus.

Heidi has kindly written some words for us to share with our readers about Kalle and her thoughts about life. Thank you Heidi, they are lovely words and sum up your life together beautifully.

By Heidi Trautmann
www.heiditrautman.com

Thank you, Margaret and Chris for the opportunity to say some words after I have lost my husband and best friend, and thank you for having been with me together with the many friends to wish him Bon Voyage on his last trip.

Kalle has been at my side for over 30 years, adventurous years through many waters and across many countries. However, he was always very cautious and steered our boat carefully. I am very grateful to him. I have often thought about life and in one of my reflections I think I said just what Kalle was and what he did for me and his friends and family. He was a most honorable man.

A Thought about Life

Life is like a garden with two gates, one by which you enter when you are born, the other you use when you return the leasing contract. In your childhood years your parents and teachers tell you how to use the garden tools properly; you learn to plant the necessary to sustain yourself and later your family, trees and vegetables to give you shade, vitamins and protection, a place to feel at home.

The garden teaches you to respect nature and also to admire the wonderful structure and blossoms of 'weeds'; it teaches you to accept and withstand storms and hail, rain and blazing sunshine and not to blame others for the damage. Finally you will seek a good balance in your garden, among the plants, your family and the friends who are always welcome in it.

And when one day you close the last gate behind you, you will know that you have left your garden in good order for the next generation to benefit from.

TRNC at the 3rd Turkish World Documentary Film Festival

By Ahmet Abdulaziz

Near East University represented the TRNC at the 3rd Turkish World Documentary Film gala night, organised recently by the Turkish World Journalists Federation with the support of 11 universities and the General Directorate of Cinema of the Turkish Ministry of Culture and Tourism.

Turkish World Documentary Film Festival is an annual event that brings Turkish documentary filmmakers together to exchange ideas and promote Turkish culture through their documentaries. This year, the 3rd Turkish World Documentary Film Festival takes place in 8 countries and 8 cities between the 2nd of October and 10th of November 2018.

The gala night commenced with the screening of the documentary film 'Türk Ana' (Turkish Mother), a joint project of filmmakers from 8 countries describing Turkish mothers through their point of view.

Türk Ana (Turkish Mother), which was designed within the framework of the 3rd Turkish World Documentary Film Festival, was created by combining mother-themed scenes shot in eight Turkish countries. The documentary features scenes describing Turkish mothers from eight different countries with the point of view of eight different filmmakers.

The scenes regarding Turkish Cypriot mother were shot under the consultancy of Associate Professor Fevzi Kasap, the Head of NEU Department of Radio Cinema and TV. The documentary film, in which a Turkish Cypriot mother was portrayed by sixty-five-year-old Zarif Köse, was directed by Zeyde Yaliner Örek, Faculty Member at the Department of Radio, TV and Cinema of NEU Faculty of Communication, and PhD student Ömer Evre.

The scenes of this documentary were shot at Near East University and in the village of Cihangir.

The 3rd Turkish World Documentary Film Festival is being held with the participation of universities and cinema television organizations from Turkey, Turkish Republic of Northern Cyprus, Azerbaijan, Kazakhstan and Kyrgyzstan, Uzbekistan, Macedonia and Bosnia and Herzegovina. The films that were shot in professional and student category will be watched and evaluated by the jury and the selected films will make it to the finals.

The award winning films and those considered eligible to be shown will be presented to the appreciation of audiences. The festival aims to reach more than 40,000 viewers with day-long sessions over two days in each of the 16 movie theatres located in eight cities. Near East University, which has participated in all Turkish World Documentary Film Festivals held so far, feels proud of being a partner of this significant event once again and representing

TRNC at the 3rd Turkish World Documentary Film Festival.

Near East University is also proud of representing the country by taking part in the Board of the festival; Near East University Board of Trustees Chairman Associate Professor Irfan Günsel takes place as a member of the Festival Honorary Board while Professor Nedime Serakıncı, the Head of NEU Center of Excellence, and Associate Professor Fevzi Kasap, the Head of NEU Department of Radio Cinema and TV, take place as members of the Festival Executive Board.

Slimmer's World members' farewell lunch at Lord's Palace

By Margaret Sheard ...

We were invited to join some of the members of the Slimmer's World Sartaj Club for a farewell lunch for two of the group who are returning to their respective homelands next week.

Val Stuart-traynor who runs the group introduced us to Kate, Barbara, Kim, Jean, Chris, Annette and Elizabeth who had come to bid farewell to Jean who is returning to the UK on the 17th October and Annette who will be returning to Denmark on the 19th October.

We all enjoyed a delicious lunch from the very extensive Lord's Palace buffet, and we noted with interest the choice of food by the members, although as a special occasion I would think Val would be very lenient with them. We had noted the week before at their gathering they had provided a buffet lunch at their venue which had been prepared by themselves and it certainly looked like very healthy eating.

There was a lot of conversation going around the table but I did manage to glean some information from Val about the club, affectionately called The Fat Club, and her role in it. There are currently 15 members plus 3 target members (those who have reached their target but join in from time to time). They meet at Sartaj Restaurant in Catalkoy every Saturday morning at 10am, for a weigh-in and discussion of progress.

The club has been running for 6 years and was originally set up by Catherine Meddes at The Fez in Catalkoy. Catherine did all the set up work and produced the eating plan booklets which the current members use. Jean, who is now returning to the UK, has been attending ever since the club started.

There has been an assortment of venues during this time and currently Sartaj Restaurant is the venue for their weekly get-togethers.

Val joined the Club as a member in January of this year and took over running it in August, when the Catherine had to give up her involvement. She is delighted with her own wonderful achievement of losing 4½ stone since becoming a member.

The Club has a project of losing at least 1 pound a week until Christmas which, from the time it started, will result in the loss of at least 1 stone. They have a cardboard Christmas tree with their names on baubles which are removed if they achieve their weight loss each week and it remains to be seen who will reach the top of the tree first. Val said she won't be able to join in this as she has already achieved such a great weight loss.

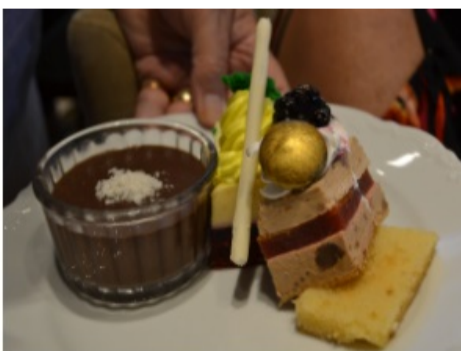

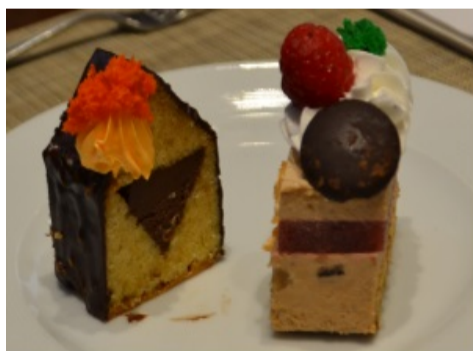

There is to be a raffle and Val and the members thank Lord's Palace

(Meal for 2), Windows Cafe and Bar (Meal for 2), CyprusScene.com and other local businesses for their generous donation of prizes.

This was a special farewell occasion, so we are looking forward to visiting the slimming club one Saturday morning to see what happens at their normal and of course more serious weekly sessions.

It is currently a small group and the members get on very well together although it is hoped to increase the membership in order to be able to raise funds which they would like to donate to Kyrenia Animal Rescue (KAR) in the future.

If you would like more information about the slimming club please contact Val on 0542 855 1219.

Cafe Deniz beach cleaning in Karakum - 13th October 2018

By Chris Elliott...

At CyprusScene we are very keen to promote the cause of beach cleaning and all aspects of cleaning up North Cyprus and on Sunday 7th October we had a nice lunch at Cafe Deniz Karakum and spoke to Gill Radcliffe to find out more of her plans for another beach cleaning event she is organizing.

On Saturday 13th October Gill is arranging a cleaning of the beaches on either side of the Karakum headland nearby to Cafe Deniz and she invites those who would like to take part to meet her at Cafe Deniz at 10.45am and then proceed to the beaches at 11.00am to commence the cleaning and on completion they will be given a complimentary drink as a sign of appreciation.

At 12.00 noon at Cafe Deniz there will be an Arts and Craft Fair with stalls selling Driftwood Signs, Plaster and Artwork and when speaking with a local resident, she said they are hoping to organise a fun event for children with perhaps flying kites etc.

If any local reader would like a stall to promote and sell their products please contact Gill direct.

All are welcome to go along this Saturday 13th October to help out with this beach clean and make it a fun day and more information can be found on the Cafe Deniz and Gill Radcliffe Facebook pages.

Bellapais Kindergarten shown the way to Animal Love

Girne Municipality, organized an awareness event about love and caring of animals for the Bellapais Kindergarten. The event was attended by Naile Soyel, the Head of the Health Branch of the Girne Municipality, and the children were informed about the problem of street animals and the Animal and Rehabilitation Center of the Municipality of Girne.

The children had the opportunity to get to know a dog by loving the dog brought to meet them by the Municipality. The children also donated food to the Municipality of Girne Municipality Animal and Rehabilitation Center.

Naile Soyel, the Head of the Health Department of the Girne Municipality, said that in October, many schools and institutions visited

the Animal and Rehabilitation Center of the Municipality of Girne and made donations and wished to thank them for the work being carried out by the Municipality, which has drawn attention to the growing awareness of the problem of street animals in the community.

Can there be a rescue plan for Hope 4 Pets?

We were devastated to learn that Hope 4 Pets were at the stage of having to terminate their charity status due to lack of funding and volunteers. They have been doing such a wonderful job of helping the abandoned and unwanted animals of North Cyprus and this help is so desperately needed, together with the other organisations and groups who also do so much, there can never be enough groups to cope with the growing number of street dogs and cats, injured animals, re-homing etc.

Following is the statement issued by Hope 4 Pets in which they have said they are doing all they can to be able to continue, but they need HELP.

“The trustees of the H4P U.K. Charity met with some forthcoming people to discuss the future of H4P, to see if a rescue plan could be put together to enable H4P to continue to help the animals of the TRNC.

Various ideas were discussed, but the most important was more funding, and volunteers. Whilst events are a good way of funding, H4P need a regular income to pay our vet bills, these bills are

increasing by up to 40% because of the exchange rate of the TL.

Feedback from our members has shown that most did not realise that the charity was so small, and that it relies totally on donations. We appealed 6 months ago to all members of the Facebook group to help a little by setting up a monthly standing order for just £1.00 or now 10tl only 34 people out of nearly 6000 did this! If only half of the 6000 had done so before we would have had the funds to carry on.

So, now is the time to help us. We have agreed to appeal again for members to set up a Standing order or Direct Debit for as little or as much as you can spare, or become a paid member of Hope 4 Pets, they can contact admin or go to the stall at the Catalkoy Lemar Wednesday market, from the Food Lodge in Catalkoy or from the Saturday stall at Lambousa in Lapta, this is currently just 50TL per year.

We are also asking members to register interest in continued volunteering for us. Predominantly to be on hand to collect animals in need in all areas and vet runs, to run the raffle at the band gigs and

to take over the tasks of the Kaymakamlik procedures for these gigs, for individuals to head fundraising events and for giving a few hours helping with the weekly stall.

We have agreed to wait until 31st October to make a final decision, it is now up to the 6000 members to save Hope 4 Pets.”

Energy Portals - Doorways into other dimensions

By Nick Vye
Sanctuary

These energy portals exist in many places on earth. They are doorways into other dimensions. These usually exist on ancient ley lines, that run between some churches, stone circles or standing stones etc.

This is called like an electrical power grid, earth's natural energy grid. They also exist in the upper atmosphere and are why objects, for example UFO's, can suddenly disappear from view while watching them. So you then are not sure if you really saw it.

There have been recorded cases in the USA and other countries, where people have watched someone walk away from them and suddenly vanish from their sight. Unbelievable you say. Well physics now know this is possible, that there exists numerous frequencies of vibrations still not totally understood.

Many centuries ago this knowledge was known and used by the ancients. I believe that they used these energy ley lines to transport things. By altering the vibrations of molecules in the objects, it either became lighter if it was stone or

completely couldn't be seen. Then placed on a energy ley line it would transport itself to the next energy portal station.

Could the Great Pyramid of Giza have been built that way, I ask myself? It is only a question of time before we prove it.

Only 50 years ago, our computers were the size of a small building. Our mobile phones today can do more functions than the computers that sent mankind into space and to the moon. You wouldn't have believed that either 50 years back. So there you have it, nothing is

impossible, keep on thinking free. Who knows where it will take us.

With love light and peace to you all.

Nick Vye Sanctuary.

Take it Easy A Poem by Nick Vye

**Slow down there's no rush,
You can always catch another bus,
Life goes by so very fast,
Don't worry you won't be the last,**

**So take charge of your life,
Let go of all that strife,
Slow down the walk you step,
Live your life without regrets,**

**Things go wrong when there's haste,
Life's not a competitive race,**

**Slow down have time to think,
You're not a skater on an ice rink,**

**Before you know it your time has come,
You probably missed out on all the fun,
So take it easy and settle down,
Stop running and stand your ground,**

**Take an inner deep introspective look,
Observe what you see like reading a book,
Then utilize in your life what you learn,
Slow right down and watch for the next turn**

The North Cyprus Driving Test, a whimsical view

At a time when Road Safety is a topical subject we present for the amusement and recognition by our readers a great article about bad driving written by a past playwright of Kyrenia Amateur Dramatic Society, Phil Lucock.

This lighthearted sketch was written by Phil after dreaming about taking 2 hours to drive from Lapta to Girne and brings into focus the worst of driving standards that we see on TRNC roads.

The North Cyprus Driving Test

By Phil Lucock.....

Okay, let's get you comfortable before we start. Right what's the first thing we do?

Look in your mirror!!! What on earth for, you look fine to me, no no, first you lower your window. What do you mean what for? how can you drive with your elbow out of the window if it's not open. Now just move the seat belt out of the way, no, no don't put it on, just make sure that you don't sit on the buckle, that's right.

So what's next, yes that's right you pull out into the traffic, no, no, no, not

yet. The road is clear, you must wait until a car is approaching so that you can pull out in front of him. That's better, much better. Why is he blaring his horn? Oh don't worry it just means he is a Brit.

Okay, now is the time to light your cigarette, what do you mean shall you pull over, no, no just control the wheel with your knees, that's right, you are doing fine.

Right now let's take a right turn, good, no, no, don't signal please, if you do that it takes all the fun out of it, yes, yes that was great, what, oh don't worry we missed him didn't we?

Okay we are coming to a roundabout, so pull over to the outside lane, slow down, that's right, now cut in front of the guy inside you.

Great, right now get closer to this car in front, the correct way to do it is to make sure that you are only a couple of inches behind him, yes that's fine.

Ok, so what's missing then my friend, what very important thing have we not done. Right I'll tell you, you've been on the road for 20 minutes and you have not yet made a phone call, that's very important. Even better send a text message. What do you mean you

can't see the road and the screen, just get your priorities right and concentrate on the phone, there that's better isn't it.

Okay, we are doing fine, let's just get past this guy in front shall we, of course there is a long queue, just go past him and pull in right in front of him, that's right, brilliant.

Now then traffic lights, why are you stopping," They're on red," so what there's nothing coming is there just carry on. Ok these lights are red as well so just pull up, and get ready to go, ok rev up and get ready, get ready. Ok amber; now shoot off fast, that's great.

Ok we are back at the test centre now so pull up and park the car.

Ok, I'm sorry to tell you that you have failed, why? I'll tell you why, look over there, the pavement is totally empty, and you have parked the car here on the road.

Better luck next time!

The Foreign Residents in the TRNC (TFR) know how to party

It was good to see that the members and friends of The Foreign Residents in the TRNC (TFR) had a good time and enjoyed themselves at the recent Oktoberfest held at the Açmenya Restaurant in Alsancak and this is what the TFR Events Manager Pamela Tschersich had to say about the event. "Over 170 members with guests enjoyed an evening of superb entertainment from our authentic Bavarian musician MICHAEL especially flown over for our 2018 Oktoberfest entertainment....rock on next year !!

We had the ladies showing their yodeling skills in one game and the men doing their German [Bavarian]

Dance....well done all who took part, great sports plus good fun to watch.

Thank you to Açmenya Restaurant and staff for all the help and catering, all done as ordered...the beer ...what can we say... next year we will have to

make sure pump connections have not changed....a bit too technical for me... but the group of men that helped us all came up with the same decision...impossible to use plus our man from BEER 'N' BEER in Nicosia was in Paphos so unable to help....Big

thanks to local restaurants for helping us out from their stock !!!!!"

And by the way, this is what our entertainer from Bavaria commented on Facebook: "My best 5 days of the year with wonderful people...Thanks for this time! Michael!"

The TRNC Dog Whisperer is appealing for your help!

We have received the following appeal from Rob Astley, the Dog Whisperer, who is appealing for as many people as possible to go to the Seabreeze Restaurant table top sale on Monday 15th October in Kucuk Erenköy at 12.45am and this is Rob had to say about this event..

"I have just been given some really posh things for this sale including a video player and a working HP pc with monitor, some will go to Stevie's auction because it will raise more money and another fiver feeds a dog for a week so the more the better.

Please come and have a look as Claire Lamb and the girls have again worked really hard on this table top sale and Claire has not stopped baking so even if you're not hungry please come to

Seabreeze and buy a cake. If you don't, I will find you, Ha Ha! only joking!

Another reason to come and give Claire all your money is that in the past 10 months or so I've only seen 3 dead dogs at the side of the road between Çatalköy and Tatlısu, the reason for this I am sure is that many stray dogs are being rescued and this table top sale is all about keeping the animals alive and cared for..

We have less and less puppies around now because we have spayed dozens and dozens and also we have medicated and vaccinated many .I really don't know exactly how many but it's near to 100.

I think we may have re-homed this year around 80, so this is the reason you don't come on holiday

or go shopping and see dead dogs anymore because between us all we are trying to do something about it in our area.

More helpers are joining us every week but we are also finding more dogs to help every week so law of averages says it's going to get easier and with your help at this sale I can give ALL the money raised to the vet so I can carry on annoying him with dodgy looking very large dogs with fleas and ticks. Ha Ha only joking Niazi.

So thank you in advance and let's make this the best Seabreeze Restaurant table top sale ever because if it's not the best!, I will come round all your houses and eat all your cakes and make you all to have at least one pup or dog each and yes I have got that many x

A very kind lady, Catherine Wood has pledged to double by way of a donation all that is going to be raised at the Table Top sale.

Thank you again for your attention. Rob Astley - The Dog Whisperer"

Exhibition of drawings by Christina Hessenberg

By Heidi Trautmann ...
www.heiditrautmann.com

I feel personally committed to say some words about the exhibition of drawings by Christina Hessenberg. I have known Christina for many years and have watched her working.

In 2008 I did an interview with her for my art book 'Art and Creativity in North Cyprus, Volume I'. We have been working together in our 'Thursday Art Group' for many years, doing life drawing. I regard her as a very important artist in Cyprus landscapes, Cyprus plants and trees, apart from what we were doing together, the human figure.

In 2011, the 14 members of our art group did an exhibition of drawings and paintings together in Kyrenia for which she wrote a short text about her philosophy of working:

But please read my interview with her shown as follows :

"From the time I first started drawing, the human figure has always been an important subject. My art education was initially quite traditional and there was a lot of emphasis on drawing from life.

Later when I studied painting I became, like many other students, influenced by the abstract expressionist movements of the American School. Our tutors were young and progressive. I worked on large canvasses in acrylic paint. I moved away from traditional, representational work.

But never completely. While I was a member of the Barbican Art Studios there were a number of us who wished to continue life drawing. Our group was a mixture of artists and craftsmen - sculptors, painters, ceramists; there were those who specialized in stained glass, textiles, copperplate engraving, wood engraving. For all of us life drawing was an important discipline.

Living in North Cyprus I returned to more traditional, representational work using mainly soft pastel and charcoal.

Landscape was a new subject for me. And still life too. I was inspired by the light and colours of the Mediterranean, and the patterns and shadows cast by sunlight in a garden full of pots and cacti became another subject. The incredible forms of old olive trees are compelling to draw. For me studying the twisted and gnarled trunks inspires almost the same excitement as studying the human form.

Drawing from life is a priority for me. It is a fundamental activity. By continuing this discipline I hope to include more passion and more drama in all my future work"

I don't think I have to add much more. You have to see the work for yourself.

Please see the details on the poster.

More International cleaning on Huzurevi beach Lapta

By Chris Elliott.....

It was great to see that Diana Suyunshalina posted the following news about cleaning on the Huzurevi beach area near Lapta into the No Straws North Cyprus Facebook page.

Increasingly we are seeing more and more news of beach cleaning and the desire of many, many people to see a Clean Cyprus so for those readers of this article who would like to become involved, do reach on Facebook to No Straws North Cyprus on Facebook and offer your help and support.

Another great day!!!

"Thank you to all our Russian, English and Turkish friends. So much fun to do this together. We expected about 10 people, but more than 40 people came. And we didn't even have time to do a lot of posts. That means that people do care for the island.

We don't know many English and Turkish Facebook groups, so the majority of people were Russian, so everybody please share this all over.

Let more people know about our group. There are many other people who care for Northern Cyprus, and would like to participate in cleaning, but they might not know about our group.

Thank you to our Mayors, Mustafa Aktuğ and Firat Ataser for supporting and providing us with everything we needed. With your cooperation we can achieve a lot.

We had a lot of messages from all over Northern Cyprus, that people there also want to clean up, but they don't know how to do it, and where to find other people.

We would like to say, that they can start posts on our page No Straws North Cyprus. And we can share it all over in our Russian, Turkish and

English groups. Three weeks ago there were only three of us. And by now around a hundred of people participated in cleaning and thousands have seen about it.

In less than three weeks we've cleaned four beaches. They can connect us, and we will try to do our best to attract as many people as possible. Even if one person posts about the next cleaning several people might come. The more people that know about our activities the more volunteers can join us all over the island.

There are two ways: you can blame all the politicians and the system and wait for them to do something, or you can just come for one hour, and clean and make the places cleaner, and later every time when you see it, you feel joy.

When the first three of us started cleaning around Camelot it took us about 7 days. But when we cleaned Huzurevi beach it took less than 1 hour, because more than 40 people came."

The 8th Girne Culture and Arts Days organised by the Girne Municipality ended with a concert of Turkish Folk Music performed by Selda Bağcan at the Girne Amphitheatre.

Selda Bağcan sang songs of the Anatolian Rock and Protest Music genre. Following the presentation of a Turkish flag by a person who

came on stage, Selda Bağcan performed the İzmir Anthem with the participation of approximately 4,000 people.

Girne Mayor, Nidai Güngördü, in his speech at the concert, said that they were happy to welcome Selda Bağcan, an important singer of the Turkic World. Nidai Güngördü stated that Edip Akbayram and

Fatih Erkoç had appeared on stage during the Girne Culture and Art Days with the slogan Peace through Art. Güngördü also wished to open the door of friendship, brotherhood and peace to Selda Bağcan.

At the end of his speech, Güngördü presented his thanks to the artist on behalf of the municipal councillors

and Girne citizens.

League Football Fixtures 13/14 October and 19/20/21 October

By Richard Beale..

As you may have only received your copy of the CyprusScene online E-newspaper on Saturday it may be too late for you to plan going to watch a local football match.

So every week we will publish the current weekend matches plus the following week to make it easier for you to plan ahead.

Selective K-Pet Super League and League 1 fixtures for weekend 13 and 14 October.

Two matches stand out for me, one in the Super League and one in League 1. On Saturday there is a Lefkoşa "derby" between Küçük Kaymaklı and Çetinkaya at the Hüseyin Ruso Stadium.

In League 1, second place Karşıyaka take on League leaders Dumlupınar in the compact Ergin Cemal Şahdur Stadium.

SL = Super League, L1= League 1

A Look at Last Weekend's Local Football Results

By Richard Beale..

Week 3 K-Pet Super League Results

League Leaders Yenicami made it 3 out of 3 with a narrow away win over Gençler Birliği. Mağusa Türk Gücü kept the pressure up with a away win against Türk Ocak. Doğan Türk Birliği who are normally challenging for top spot, poor start to the season continues being trounced 4-1 by newly promoted Gönyeli to leave them rock bottom.

Week 3-Pet League 1 Results

Plenty of goals flying the net with Hamitkoy smashing 7 without reply against Ozanköy who have had a reasonable start to the season. Another team scoring seven goals were the unbeaten leaders Dumlupınar, but at least Doğancı scored twice in reply the first goals the Famagusta team have conceded this season.

Super Esentepe as Girne Halk Evi see Red

Result : Esentepe KSK 2 Girne Halk Evi SK 1

By Richard Beale ..

Saturday 6 October 2018 : K-Pet Super League : Erdal Barut Stadium

Esentepe gained their first win of the season in this pulsating match which like the temperature was red hot and finished with Girne Halk Evi seeing red having two players sent off.

On a very warm sunny afternoon another large crowd was present to witness this Super League encounter of two promoted teams. Both teams were virtually unrecognisable from the ones that got them promotion to the Super League, with only a few survivors remaining from last season teams.

The opening minutes were scrappy with both teams guilty of misplaced passes, Girne Halk Evi (GHE) dangerman Şenol tested Esentepe goalkeeper Ali with two shots from outside the box which were both dealt with comfortably.

Esentepe hit GHE with with two sucker punches as they scored twice in 2 minutes.

36 mins : A long ball from the Esentepe defence was held up well by striker Odi, despite being under pressure from William he squared the ball across to KAAN, playing his first full game, to shoot home. **1-0.**

38 mins : A long hopeful ball from Muhammed was met with a backward header from SANE who sent a looping header over a bemused GHE goalkeeper Okyanus. **2-0**

HALF TIME SCORE : 2-0.

GHE hopes of making a comeback were hit in the 54th minute when

following a crunching tackle on Uğurcan, midfielder Lawrence Ogebe who had been treading a fine line in the first half was sent off.

However the visitors with a man short took the game to Esentepe as they made stirring efforts to pull a goal back.

It was Esentepe who came closest to scoring following a fine move in the 64th minute, when Kaan beat his man on the left and sent over a cross which saw Sane smash a shot against the GHE crossbar.

The hot afternoon was beginning to take its toll on the players with the midfield being largely bypassed. This suited Esentepe defence where Moses and Salih dealt comfortably with anything thrown at them.

A mistake by GHE defender William almost let Odi in but he was just beaten to the ball by keeper Okyanus.

The match was becoming bad tempered with referee Mustafa Öztugay booking a number of players. In the 85th minute GHE received their second sending off as Odi was brought down in full flight by William.

That wasn't the end of the red cards as the GHE bench sarcastically applauded a decision made by referee Mustafa. The referee walked over to

the GHE bench and promptly red carded Coach Serhat and his Assistant Zafer, who were ordered to leave the arena.

With 7 minutes of adding on time being played Ali acrobatically pushed over the bar a free kick, then in the 93rd minute 9 man GHE scored. A brilliant run on the left by Ousseynou beating Muhammed then Salih saw his cross slotted home by **ERTAÇ 2-1.**

Esentepe hung nervously on for the remaining minutes to record a vital first win of the season.

FULL TIME SCORE : 2-1

SUMMING UP :

Wow what a match watching Esentepe should carry a Government Health warning! A great team effort with Coach Davut making changes bringing in Muhammed and Salih for their first games of the season, both players had their best games ever in an Esentepe shirt. Kaan marked his first full match with a goal and a dazzling display.

Nigerian Odi upfront doesn't look like scoring but he chased down everything and was a handful to the GHE defence. But I will again give Esentepe "Man of the Match" to **MOSES ZADDY** who was dominant and a giant in defence.

*Ne kadar savunma için, ne kadar
saldırma için ?
kim bilir?*

Kasım'daki ara seçimler için yürütülen kampanyalarda silah kontrolünü savunmak tabu olmaktan çıktı. Amerika'da son yıllarda yaşanan silahlı saldırılar yüzünden seçmenler bu konuda daha kararlı görünüyor. İşte Amerika'da silahlarla ilgili gerçekler:

ABD'de Sivillere Ait Silah Sayısı 265 Milyon (VOA)

Silah sahibi olan sivillerin sayısı: 265 milyon

Bu rakam uzun süredir tartışmaya açık bir konu. Bir iddiaya göre Amerika'da nüfustan çok silah var. Fakat Harvard Üniversitesi araştırmacılarının 2017'deki çalışmasına göre 2015 yılında ülkede 265 milyon sivilin silahı vardı. O dönemde nüfus, 321 milyondur. 1990'lardaki silah sayısıysa 195 milyondur.

FBI'nin silah satışları için geçmiş kontrolleri: 17,2 milyon

Federal yasalar, lisanslı silah satıcılarının sattıkları her silahta müşterilerin geçmiş kontrolü yapmasını gerekli kılıyor. FBI'nin Ulusal Suçlu Geçmiş Kontrol Sistemi bu kontrolleri yerine getiriyor ve Amerika'daki silah satışları için genelde baramotre olarak kullanılıyor. Geçen yıl azalma olsa da son 16 yılda bu kontrollarda artış dikkat çekiyor.

Federal yasa ve birçok eyalet, silah şovlarındaki satışlarda geçmiş taramasını gerekli görmüyor. Bu yasal boşluk birçok Amerikalı'nın geçmiş taraması olmadan silah alabilmesine olanak sağlıyor. Bunun etkisinin ne kadar olduğu tam olarak bilinmiyor fakat 2017'deki bir araştırma silah sahiplerinin yüzde 22'sinin silahlarını geçmiş taraması olmadan aldığını ortaya koydu.

2017'de silahlı kitle saldırılarının sayısı: 346

Saldırıların sayısı kaynaktan kaynağa değişiyor. Silahlı Şiddet Arşivi, 4 ve daha fazla ölü olduğu zaman toplu vurma olayını kitle saldırısı olarak kabul ediyor. Bu internet sitesi 2017'de 346 bu tür olay tespit etti. FBI'ya göreysen toplu saldırı olayı sayılması için en az 3 ve daha fazla kişinin ölmesi gerekiyor. FBI, 2016 ve 2017'de bu tür 20 olay tespit etti.

Silah şiddeti yüzünden ölen Amerikalı sayısı: 35,141

Bu rakam, 5 yılın ortalaması ve Hastalık Kontrol Merkezleri tarafından takip ediliyor. Bu rakam içinde 12,246 cinayet ve 21, 637 intihar var. Silahlı Şiddet Arşivi 2017 ve 2018'de toplu silahlı saldırılarda 698 kişinin hayatını kaybettiğini, 2881 kişinin de yaralandığını bildiriyor.

Parkland'dan sonra kabul edilen silah yasası sayısı: 55

Florida Parkland'daki silahlı kitle saldırısından sonraki 5 ay içinde 26 eyalette, ki 15'inde Cumhuriyetçi valiler yönetiminde, toplam 55 silah kontrolü yasası kabul edildi. Bu veri Giffords Silahlı Şiddet Önleme Hukuk Merkezi'nden. Bu yasalar arasında 9 eyalet aile içi şiddete karışanların silah satın almasını engellemeyi de kabul etti ve 6 eyalet de geçmiş kontrolleri genişletti.

Nobel Barış Ödülü'nü kazanan Murad ve Mukwege kimdir? (BBC)

25 yaşındaki Kürt insan hakları savunucusu Nadia Murad, Irak Şam İslam Devleti (İŞİD) tarafından kaçırılan ve esir kaldığı süre boyunca cinsel ve fiziksel şiddete maruz kalmış binlerce Ezidi kadından biriydi.

Nadia Murad, örgütün elinden kurtulduktan sonra Ezidi katliamının tanınması için mücadele vermeye başlamıştı. Sincar yakınlarındaki Kocho köyündeki evinden alınmış, Musul'a götürülmüş ve burada işkence ve tecavüze uğramıştı. Daha sonra kaçmayı başarmış ama Sincar saldırısı sırasında annesini ve 6 erkek kardeşini kaybetmişti. O dönem BBC'ye konuşan Murad, İŞİD'den kaçmasına ise örgütle bağlantısı olmayan Müslüman bir ailenin yardımcı olduğunu anlatmıştı:

"Çoğu insan yalnızca bir kere ölür ama biz saat başı ölüyoruz. Kalplerimiz sürekli korkuyla doluydu ve ne zaman bize geleceklelerini hiçbir zaman bilmiyorduk.

"İŞİD tarafından kaçırılmadan önce kendimi öldürmeyi hiç düşünmemiştim. Herkesin Allah'ın onlara verdikleri hayata kabul etmesi gerektiğine inanıyorum. Dayanmamız gerektiğine inanıyorum ama birçok kız intihar etti."

Murad, 2016 yılında kendisi gibi İŞİD'in elinden kurtulan insan hakları savunucusu Lamiya Başar ile birlikte Avrupa Parlamentosu (AP) Sakharov Düşünce Özgürlüğü Ödülü'nü kazanmış, aynı yıl BM İyi Niyet Elçisi seçilmişti.

Murad 2016'da Avrupa Konseyi Vaclav Havel İnsan Hakları ödülüne de layık görüldü. Murad, Strasbourg'daki ödül alırken yaptığı konuşmada İŞİD'in Ezidilere saldırılarını 'soykırım girişimi' olarak niteledi. Ayrıca "Dünya tepkisiz kalıyor" diyerek İŞİD militanlarının uluslararası suç mahkemelerinde yargılanması için çağrıda bulundu. Bu yıl Hollanda'nın Lahey kentinde düzenlenen ve BM yetkililerinin de katıldığı bir konferansta uluslararası bir "İŞİD mahkemesi" kurulması fikri ilk kez kapsamlı bir şekilde tartışılmıştı.

Murad İŞİD'in elindeyken yaşadıklarını 2017'de kitaplaştırdı. 'Son Kız: Bir Anı' adlı kitapta savaşın ve İŞİD'in bölgeyi nasıl etkilediği detaylı olarak anlatılıyor. BBC'den Nafiseh Kohnavard, Murad ile ilk konuşan gazetecilerden biriydi. Ödül açıklaması sonrası Twitter hesabında bu paylaşımı yaptı:

"Nadia'yı Musul'dan kaçmayı başardıktan bir gün sonra tanıdım. Ona, yüzünü göstermeden röportaj yapmayı önerdim ama o bunu reddetti ve 'Hayır, tüm dünya başımıza neler geldiğini görsün' dedi. Bugün o Nobel Barış Ödülü sahibi."

2018 Nobel Barış Ödülü, tecavüzün savaşlarda bir silah olarak kullanılmasını engellemek amacıyla yürüttükleri çalışmalardan dolayı Kongolu jinekolog doktor Denis Mukwege ve Ezidi insan hakları savunucusu Birleşmiş Milletler (BM) İyi Niyet Elçisi Nadia Murad'a verildi.

1955 yılında doğan ve dokuz kardeşin üçüncüsü olan Mukwege, hastalara yardım eden bir din adamı olan babasından ilham alarak tıp eğitimi almaya karar verdi.

1999 yılında Demokratik Kongo Cumhuriyeti'nde savaş çıkmasının ardından doğduğu yerde, ülkenin doğusunda bulunan Bukavu kentindeki Panzi Hastanesini kurdu. Kadın doğum ve jinekoloji alanlarında uzmanlaşan Mukwege, bu hastanede savaş sırasında toplu tecavüze uğrayan on binlerce kadını tedavi etti. Mukwege, tecavüz yaralarının tedavisi konusunda dünyanın önde gelen doktorlarından biri olarak gösteriliyor. Her ne kadar alanında uzman olsa da onun da tedavi edemeyeceği kadar kötü bir şekilde yaralanmış çok sayıda Kongolu da gördü.

Ordunun toplu tecavüzü bir "savaş silahı" olarak kullanmasını eleştiren ve hükümeti yeterli önlem almamakla suçlayan, Mukwege 2012 yılında evinde suikast girişimine uğradı.

Kendisi evde yokken eve gelerek eşini ve çocuğunu rehin alan saldırganlar, Mukwege'nin arabası eve yanaştıktan sonra arabanın yanına giderek onu zorla arabadan çıkarttı. Silahı Mukwege'ye doğrultan saldırganlar, o sırada onlara seslenen Mukwege'nin yakın arkadaşı olan korumasına ateş açarak onu öldürdü. Bu sırada çıkan kargaşada arabanın arkasına saklanan Mukwege vurulmaktan kurtuldu ve araca binen saldırganlar olay yerinden kaçtı.

Bu olayın ardından ülkeyi terk eden Mukwege'nin yokluğu, çalıştığı hastanede yoğun bir şekilde hissedildi. Bir yıl sonra hastalarının ananas ve soğan satarak biriktirdiği parayla aldıkları dönüş bileti ile ülkeye geri döndü.

"Mucize Doktor" olarak bilinen Mukwege, kısa bir süre önce düzenlenen bir ödül töreninde yaptığı açıklamada, "Tüm kurbanlar çok vahşi şekilde tecavüze uğramış halde geliyor. Hastaneye ulaşabilecek kadar hayatta kalabilenler de olağanüstü fiziksel ve psikolojik yıkım olduğu görülüyor. Gelenlerin büyük bir bölümünün genital bölgelerinde kurşun ya da sivri cisimlerle yaralanmalar mevcut oluyor. Bu, bu bölgenin tarihinde görülmemiş düzeyde bir vahşilik" demişti.

Mukwege bugüne kadar aralarında BM İnsan Hakları Ödülü, Olof Palme Ödülü ve Fransa Şeref Nişanı'nın da bulunduğu onlarca ödül kazandı. Nobel Barış Ödülü'ne ise daha önce de aday gösterilmişti.

2015 yılında Mukwege'nin hayatını anlatan bir film ise Kongo'da yasaklanmıştı. Ülkenin iletişim bakanı belgeselin Kongo'ya "haksız bir şekilde saldırdığını" öne sürerken filmin yapımcısı Thierry Michel ise hükümetin bu konunun kamuoyunda tartışılmasını engellemek istediğini söylemişti.

Mukwege'nin arkadaşı ve kadınlara karşı şiddete karşı kurulan V-Day hareketinin kurucusu Eve Ensler, The Guardian'a yazdığı makede Kongolu doktoru şöyle anlatıyordu:

"Onunla ilk tanıştığımda gözlerinde tanık olduğu onca acının ifadesi vardı.

"Uluslararası şirketlerin Kongo'nun maden kaynaklarını sömürmek için kullandığı militanlar ülkeyi yakıp yıkarken kadınlara da toplu tecavüz ediyordu ve o yıllarca kadınların yırtılan vajinalarını dikti.

"Kadınlara sadece hastanede yardım etmiyor, aynı zamanda BM ve Avrupa Parlamentosu'nda yaptığı konuşmalarla duruma dikkat çekiyordu.

"Bugüne kadar hayatını kadına karşı şiddeti bitirmeye böylesine adamış başka bir kişi görmemişim."

Meriç Nehri'ni geçen sığınmacıların sayısı iki katına çıktı

Türkiye ile Avrupa Birliği (AB) arasındaki 2016 tarihli mülteci anlaşması sonrası Ege Denizi'ndeki kontrollerin artmasıyla birlikte bu yıl Meriç Nehri üzerinden geçişler bir önceki yılın iki katına ulaştı. Yunanistan Göç Bakanı Dimitris Vitsas, Atina'da parlamentoya yaptığı açıklamada 2017 yılında Meriç Nehri üzerinden ülkeye giriş yapanların sayısının 5 bin 500 olduğunu, bu sayının 2018'in ilk dokuz ayında ise 12 bine yükseldiğini kaydetti.

Ege Denizi'nde de artış kaydedildi

Birleşmiş Milletler Mülteciler Yüksek Komiserliği'nin (UNHCR) yıl başından Eylül ayı sonuna kadarki dönemi kapsayan istatistiklerine göre Türkiye üzerinden Ege Denizi'ni geçerek Yunanistan'a ulaşan sığınmacı sayısında geçen yılın aynı dönemine göre yüzde 17'lik bir artış gözlemlendi. Buna göre 2018 yılının ilk dokuz ayında toplam 23 bin 419 kişi Türkiye üzerinden Ege Denizi'ni kullanarak Yunanistan'a geçti. 2017 yılında ise toplam sayı 29 bin 818 olarak kayda geçmişti. Bu kişilerin büyük bir çoğunluğu Türkiye'den Yunan Adaları'na geçiyor.

BM verilerine göre bu yılın ilk dokuz ayında Türkiye'den Ege Denizi yoluyla Yunanistan'a geçen sığınmacıların yüzde 30'u Suriye, yüzde 23'ü Afganistan, yüzde 20'si ise Irak vatandaşı.

Ancak 2016'dan bu yana yürürlükte olan mülteci anlaşması öncesi dönem değerlendirildiğinde, Ege Denizi'ni geçiş sayılarındaki dramatik düşüş halen geçerli. Yunanistan'a gidişin en yüksek olduğu 2015 yılında 856 bin 723 sığınmacı denizi aşarken, anlaşmanın uygulanmaya başlandığı 2016'da ise 173 bin 450 kişi Türkiye'den çıkış yaparak Yunan adalarına erişmişti.

Vitsas: Anakaraya daha çok sığınmacı getireceğiz

Yunanistan Göç Bakanı, parlamentoya yaptığı konuşmada ek olarak adalarda bekleyen sığınmacıların orta ve kuzey Yunanistan'daki kamplara götürülme işleminin devam ettiğini ve daha fazla kişiyi bu kamplara yerleştirmeyi planladıklarını belirtti.

Yunan Sahil Güvenliği'nin verdiği bilgiye göre son 10 günde 2 bin sığınmacı söz konusu kamplara taşınırken, adalarda halen 19 bin kişi anakaradaki kamplara yerleştirilmeyi bekliyor. Yunan hükümeti adalarda bekleyen sığınmacı sayısını 10 bine indirmeyi hedefliyor. (DW)

Cerrah, 8 yaşındaki hastasının oyuncak ayısını ameliyat etti

Kanadalı bir cerrah, doğuştan gelen bir beyin rahatsızlığı bulunan 8 yaşındaki hastasını ameliyata almadan önce, çocuğun isteği üzerine oyuncak ayısını ameliyat etti.

Dr Daniel McNeely, doğumundan bu yana tedavisiyle ilgilendiği Jackson McKie'yi ameliyathaneye götürürken, hidrosefali (beyinde su toplanması) hastası olan çocuk doktordan "Küçük Bebek" adlı oyuncak ayısını da iyileştirmesini istedi.

Dr McNeely, çocuğun isteği üzerine oyuncak ayıyı ameliyat masasına yatırdı.

Doktor, hastasıyla arasında geçen anekdotu ve "ameliyat"ın fotoğraflarını Twitter'dan paylaştı. "Nasıl hayır diyebilirdim?" notuyla 30 Eylül'de paylaşılan fotoğraflar, yaklaşık 11 bin kez retweet edildi.

Oyuncak ayının koltuk altında ufak bir yırtık tespit eden doktor, ayıya operasyon sırasında oksijen maskesi de taktı.

Hastaneden yapılan açıklamada Jackson ve "Küçük Bebek" in ameliyatlarının başarılı geçtiği, yanyana yatan hastaların durumlarının iyiye gittiği belirtildi.

Jackson'ın ailesi, doktora ve görev yaptığı Nova Scotia eyaletindeki Halifax IWK Sağlık Merkezi'ne, oğullarını operasyon öncesi rahatlatmak için harcadıkları çabadan dolayı teşekkür etti.

Jackson'ın babası Rick McKie "Jackson 'Küçük Bebek'inin hastanede yanında yatmasından çok mutlu ve gururluydu" dedi.

"Mobil zombilere"

özel yol (DW)

Çin'in Çongçing ve Belçika'nın Anvers kentlerinin ardından Litvanya'nın başkenti Vilnius'ta da akıllı telefon düşkünü, dikkatsiz yayalar için özel bir yol açıldı.

Vilnius'taki bu 300 metre uzunluğundaki yol, yürürken akıllı telefonunun ekranından gözünü ayırmayan yayaların başkalarını tehlikeye atmasının önüne geçmeyi amaçlıyor. Yola çizilen özel çizgiler, yayaların mobil telefona odaklanmış durumdayken bile gidecekleri yönü görmelerine olanak sağlıyor.

"Vilnius gerçek bir teknoloji kenti" diyen Vilnius Belediye Başkanı Remigijus Simasius, proje ile yaklaşık 550 bin nüfuslu kentte yazılım ve bilişim endüstrilerine dikkat çekmeyi planlıyor. Simasius bu sayede bu sektörlerin çalışanlar ile kalifiye çalışanları kente çekmeyi amaçladıklarını kaydetti. Litvanya'da Ekim ayı başında yayaların karşıdan karşıya geçerken telefon kullanmaları yasaklanmıştı.

Avrupa Otomobil Kulübü'nün (ACE) verilerine göre, akıllı telefon kullanımı Almanya'da alkollü araç kullanımı ve aşırı hızın ardından en çok kazaya neden olan davranışlar listesinde üçüncü sırada geliyor.

ACE geçen yıl akıllı telefon kullanımının yayaların dikkatinin dağılmasında çok önemli bir etken olduğu konusunda uyarıyordu. ACE akıllı telefonlarına odaklanan yayaların otomobilleri, hatta tramvayları görmediklerini ve kırmızı ışık yandığını da fark etmediklerini vurgulamıştı.

Güneş sistemi dışındaki ilk uydu keşfedildi mi? (DW)

Gökbilimciler 8 bin ışık yılı uzaklıktaki bir gezegenin uydusu olabileceğine dair güçlü bulgulara eriştiler. Tahminler doğru çıktığı takdirde güneş sistemi dışındaki ilk uydu keşfedilmiş olacak. Columbia Üniversitesi'nden David Kipping ve Alex Teachey adlı araştırmacıların ölçümleri Science Advances dergisinde yayımlandı.

Bilim insanlarının ölçümlerine göre, güneş sistemi dışındaki uydunun kütlesi, çevresinde döndüğü gezegenin yüzde 1,5'una tekabül ediyor. Ay kütlesi ile yerküre arasındaki kütle ilişkisi de neredeyse aynı oranı buluyor.

Güneş sistemi dışındaki gezegen, Güneş sisteminin en büyük gezegeni Jüpiter'den büyük olduğundan uydu kütlesinin Neptün'ün büyüklüğüne eşit olduğu ve Neptün gibi gazlardan oluştuğu tahmin ediliyor. Dev boyutlardaki "gaz gezegen" güneş sisteminde keşfedilen 200 dolayındaki gezegenden farklılık gösteriyor.

Sadece Kepler - 1625b gezegeninin uyduya sahip olduğu ve bu gezegenin güneş büyüklüğünde ama güneşten yaşlı olan Kepler - 1625 yıldızının çevresinde döndüğü tahmin edilmekteydi. Kepler - 1625'in ışığındaki gölge ve kararmaları inceleyen araştırmacılar buna Kepler - 1625b gezegeni gibi uydudan kaynaklanan ışık dalgalanmalarının da yol açabileceği görüşündeler.

Hubble teleskopuyla elde edilen bilgilerin gezegen ile ilgili verileri doğrulaması durumunda gezegenler sisteminin gelişimini anlatan önemli bulgulara ulaşabileceğini belirten Kipping, "böyle bir durumda gezegen uydularının oluşumuyla teorileri revize etmek gerekebileceğini" söyledi.

Toyota 2 milyondan fazla hibrit aracı geri çağırdı (DW)

Japonya'nın en büyük otomobil imalatçısı Toyota melez motorlu 2 milyon 430 bin aracı servise çağırdı. Şirketin açıklamasında, hibrit sistemin elektronik aksamındaki problem nedeniyle motorun aniden stop edebileceği belirtildi.

Problemin 2008 Ekimi ile 2014 yılının Kasım ayları arasında imal edilen Prius ve Auris modellerinde ortaya çıktığı açıklandı. Geri çağrılan hibrit modellerinin yarısı Japonya'da trafiğe çıkmıştı.

Motorun kontrol sistemindeki yazılım hatasının motoru kilitleme ihtimali bulunan Toyota modellerinden 32 bin adedi Almanya'da, 290 bini ise Avrupa genelinde satılmıştı.

Eylül ayı başlarında da bir milyon dolayında Toyota Prius yangın çıkma tehlikesi nedeniyle servise çağrılmıştı. Dünyanın ilk hibrit motorlu modeli olan Prius en tutulan yakıt tasarruf potansiyeli yüksek otomobil unvanını almıştı.

Toyota, arızalanma ihtimali bulunan otomobillerinin kaza yaptığına dair şimdiye kadar haber alınmadığını duyurdu.

Güngördü, Zeytinlik köyünün zeytin yanında bir dönem bu köyde yaşayan Templer Şövalyeleri ile bilindiğini hatırlatarak, köye templer şövalyesi heykelini kazandırdıklarını kaydetti.

Deniz kıyısında bir kasaba, kış sezonu hava soğuk ve dolayısıyla kasaba bomboş. Herkesin birbirine borcu var ve zor durumdalar. Şans eseri kasabaya bir turist geliyor ve bulduğu ilk motele giriyor. Resepsiyona 100 lira bırakıp odalara bakmaya çıkıyor.

Motel sahibi hemen parayı alıp, market sahibine borcunu ödüyor. Market sahibi o parayla toptancıya olan borcunu kapatıyor. Toptancı sevinçle parayı alıp nakliyeciyeye olan borcunu ödüyor. Nakliyeciyeye parayı alıp benzinlik sahibine olan borcunu ödüyor. Benzinlik sahibi de o parayla motele olan borcunu ödüyor. Ve o sırada turist odadan geri dönüyor ve odayı beğenmediğini söyleyip 100 lirasını geri alıyor. Turistin bu ziyaretinden somut olarak hiç para kazanan olmuyor. Fakat kasabalılar borçlarından kurtuluyor :)

Diyojen, israfçı tutumuyla bilinen bir adamla karşılaşmıştı. Ondan bir lira istedi, israfçı adam: -Niçin başkasından bir kuruş istiyorsun da, benden bir lira, diye sordu.

Diyojen şu uyarıcı cevabı verdi müsrif adama: -Çünkü, başkalarından yine istesem, bana verirler. Ama bu israfın yüzünden, senin bir daha verebileceğinden şüpheliyim.

Necmettin Dede bak savcılara...

"-Neyine bakacam be... Herşeye çare buldular, şu siyaset yolunu açmaya bir çare bulamadılar... Ayıptır be..."

-Aiihmmm...

"-Konuşma bee, şuna bak... Yürüyün... Bak para var orda para... At onu cebine..."

-!...

"-Necmettin Erbakan 1997... Hıııh... 28 Şubat'tan yeni çıkmışım... Herkes karşımda... Hapse atmak istiyorlar... Altınoluk'u tercih ettim... Neden Altınoluk dersin, özel bir nedeni yok... Tamamen yargısal..."

-Hop... Hop... Hooop...

"-Zıplama kız gardiyan gibi. Başım ağrıyo zaten... Nasıl yapıyo deden?..."

-Tamamen yargısal...

Karı koca otele geldiler. Anahtarını aldılar. Otel personelinden biri kendilerine yardım etti. Odaya çıktılar. Personel valizleri yerleştirirken, kadın pencereden baktı ve yüzünü buruşturdu:

"Ne biçim otel bu! Sözüm ona adı "Deniz Otel" hiçbir yerinden deniz görünmüyor ki..

Personel hemen atıldı:

"Beyazıt'taki "Amerikan Otel"nden de New York görünmez, efendim..."

Yaşlıca bir adam güzel bir hanımla mücevher dükkanına girer.

Adam satıcıya:

"Çok güzel bir yüzük satın almak istiyoruz."

Satıcı vitrinden güzel bir yüzük çıkarır gösterir:

- "Bu yüzüğün bedeli 4000 \$'dır efendim," diye gösterir.

İkili yüzüğe bakar ve yaşlı adam satıcıya;

- "Lütfen bana en iyi yüzüğünüzü gösterin!"

Satıcı içerdeki kasadan bol pırlantalı şahane bir yüzük getirir;

- "Bu dükkanımdaki en iyi yüzüğüm.. ve fiyatı 50 000 \$ dır!"

Genç kadın heyecanla parmağına takar. Yaşlı adam cebinden çek defterini çıkarır 50 000 \$ yazar ve açıklar:

- "Bugün; Cumartesi ve akşamüzeri, bankaların kapalı olduğunu biliyorum.

Sizin karşılığı olup olmadığından emin olmak istediğinizi biliyorum. Çeki size bırakıyorum, Pazartesi sabahı bankama telefon edip çekin karşılığını aldıktan sonra, üzerinde yazılı olan telefonumdan beni arayın lütfen! Biz de gelip yüzüğünü alırız.

Pazartesi sabahı mücevherci yaşlı adamı arar:

- "Sen benimle alay mı ediyorsun be adam? Hesabında hiç paran yokmuş!"

Yaşlı adam:

- Sen yüzüğü dükkanında sakla ve çeki yırt. Sana posta ile 100 \$ gönderiyorum.

Sayende şahane bir hafta sonu geçirdim...

Genç iş adamı uçağa binmek üzere havaalanına gelir ve bilet kontrolü yapılan masaya giderek, elindeki valizleri teslim eder.

Görevli; "Biletinizi alabilir miyim?" der.

Adam biletini verir ve ekler; "Biletimden göreceğiniz gibi New York'a gidiyorum. Ancak, verdiğim yeşil valizin Londra'ya, mavi olanın da Paris'e gitmesini istiyorum."

Görevli kız şaşkınlıkla; "Özür dilerim, ancak bunu yapmam mümkün değil".

Bunun üzerine genç adam; "Bunu duyduğuma çok sevindim. Geçen sene yapmıştınızda!"

Genç adam; güzel bir tatil sabahı, çevre yolundan direksiyonu kırdı. Eşini kaybettiğinden beri çiftliğinde yalnız yaşamakta direnen, 90 yaşındaki dedesini merak etmişti. İnatçı ihtiyar ne yapıyor acaba nasıl yaşıyordu?

Dede, torununu karşısında görünce sevindi, onu kucakladı ve sofrada ona da yer açtı. Sahanda yumurtaya uzanan genç adam, yağ ve yumurtadan başka şeyler gördü:

- Dede! Bu tabak temiz mi?

Dede çok sakin:

- Soğuksu bu kadar temizler. Otur da kahvaltını yap..

Öğlen oldu. Dede, torununa mangalda et hazırlarken, torunun gözü tabaktaki siyah lekelerle takıldı, dayanamadı:

- Dede, bu tabağın temiz olduğundan emin misin?

- Eee.. Soğuksu bu kadar temizliyor evlat!! İkide bir, bunu sormasan!

Akşam oldu yine yemeğe oturdular, torun tabağa baktı tam ağzını açacakken, yutkundu ve sustu. Yemeğini yinede yedi. Gece yarısına doğru, TV'de maça odaklanmış dedesine gideceğini söyledi ve vedalaştılar. Adımını dışarı attığında kapının önünde uyuklamakta olan köpek birden ayağa dikildi ve dişlerini göstererek başladı hırlamaya.

Genç adam geçemeyeceğini anlayınca:

- Dede, köpeğin beni bırakmıyor!!

Maçı seyreden dede, kafasını bile çevirmeden bağırdı:

- Soğuksu! Gel oğlum, gel!

GİDİYORUM

Mazide bıraktım anılarını
Kalbime gömdüm acıların
Boş yere çekmişim senin kahrını
Gidiyorum sevdiğim elveda herşeye

Sanki bana ettiklerin yetmezmiş gibi
Koluna takmışsın başka bir sevgili
Dileğin beni yaşarken öldürmekmiydi
Gidiyorum sevdiğim elveda herkese

Mutluluk kaldı artık başka bahara
Katıldım bende ayrılanlar kervanına
Aramayın beni artık bu Ankara da
Gidiyorum sevdiğim elveda herşeye
Gidiyorum sevdiğim elveda herkese
Gidiyorum sevdiğim elveda sana

BENİM KÖYÜM

Bir zamanlar bizim köyden turnalar geçirdi
Çocuklar çeşmelerden sırayla su çekerdi
Dağa çıkarken yollarda tozdan geçilmezdi
Şimdi bir sese muhtaç olmuş benim köyümde

Cumadan sonra insandan geçilmezdi
Sokaklardan geçerken katırlar birbirine sürterdi
Akşam olunca her evin bacasından duman tüterdi
Şimdi cumaya cemaat bulamaz benim köyümde

Hayatın tepeden bakınca kuşlar öterdi
Yaşlıların sohbeti köye yeterdi
Su nöbeti olunca köylüler bağda sabahlardı
Şimdi semaver çayı içmeye kimse bulunmaz benim köyümde

Bağlardaki koyun kuzudan elmalar yere düşmezdi
Kış gelince her ev kendine ormandan odun ederdi
Sıcak sobanın başında tek kaptan yenen yemekleri tadı başkaydı
Şimdi meyvalar dalında çürür olmuş benim köyümde

Babam katırları nal çaktırmaya kamile giderdi
Her bayram namazdan sonra köylü bayramlaşmaya sıraya girerdi
Her osmanlıktan gelen araba bizim için sevinç demektir
Şimdi ağullar boş kalmış benim köyümde

Her evin damında maldan mesattan geçilmezdi
Köydekiler dağdaki ekinleri orakla biçirdi
Alibeğin pınarı buz gibi soğuk içilmezdi
Şimdi yaylalar boş kalmış benim köyümde

Ekini oturma topamak bir hafta sürerdi
Dağdaki samanlar katırlarla çekilirdi
Potaza sap vermek ayrı bir zevkti
Şimdi yel sesizden eser bizim köyde

Her yağmurda seller yolları bozardı
Köylü imece ile hemen yapardı
Gökteki kartallar durmadan selam çakardı
Şimdi sular boşa çağlar benim köyümde

Her düğünde evlere bir kaç oda kailirdi
Köylünün harcı su saman ve kara topraktı
O gün yaşayanlar bugün mazide kaldı
Şimdi evler yıkık dökük kaldı benim köyümde

OĞUL

Alma sakın anan baban ahını
Düşersen yine onlar siler göz yaşını
Kurtarmak istersen evvel ve ahırını
Sakın saygıda kusur etme oğul...

Nerde olursan ol anan hisseder acını
Onun duası acar her hak kapısını
Edersen hizmet verir sana mevlam sevabını
Sakın saygıda kusur etme oğul...

İçersin tam iki yıl onun sütünü
Onların gözünde evlat hiç büyümüş
Yapar senin hep evini düğününü
Sakın saygıda kusur etme oğul...

Düşerde kapına bakmazsan onlara
Yaradan rıza göstermez yapma sakın bunu ha
Pişmanlık duyunca ağlarsın hıçkırık hıçkırık
Sakın saygıda kusur etme oğul...

Allah emreder sakın öf bile deme
Her bayram koş sarıl eline eteğine
Arayıp sormazsan gider onların gücüne
Sakın saygıda kusur etme oğul...

Göçer gider dünyadan vakti gelince
Bir dağ gibi otursa dersin hanenin bir köşesinde
Kavurur pişmanlık içini inceden ince
Sakın saygıda kusur etme oğul...

SEN GİTTİĞİN GÜN

Gün kararmıştı
Yıldızlar sönmüştü
İçimeki yalnızlık karaya vurmuştu

Serbest Fırka Hatıraları

Ahmet Ağaoğlu

Cumhuriyet döneminin ilk "güdümlü muhalefet" deneylerinden biri olan Serbest Cumhuriyet Fırkası üzerine yazılmış eserlerin azlığı, yeni yetişen kuşakların, yakın tarihin bu "yapay" demokrasi girişiminin ilginç serüveni hakkında yeterli bilgi edinmesini engellemektedir. Serbest Cumhuriyet Fırkası'nın başkanı Ali Fethi Okyar'ın Serbest Cumhuriyet Fırkası Nasıl Doğdu? Nasıl Feshedildi? adlı anılarının yanı sıra, Ahmet Ağaoğlu'nun partinin kuruluşu ve çok kısa süren ömrü hakkında bilgileri içeren Serbest Fırka Hatıraları birinci elden kaynaklar olarak bilinmektedir. Düşünce ve siyaset hayatımızın önemli isimlerinden olan Ahmet Ağaoğlu (Agayev) uzun yıllar İttihat ve Terakki'nin merkezi umumi üyeliğinde bulunmuş, mütareke yıllarında Malta'ya sürülmüş, Türk Ocağı'nın kuruluşuna katılmış ve Türkiye'de Türkçülük hareketinin öncülüğünü yapmıştır. 1930'da Atatürk'ün emriyle Fethi Okyar, Nuri Conker ve Tahsin Uzer gibi kişilerle Serbest Cumhuriyet Fırkası'nın kurucuları arasında yer alan Ahmet Ağaoğlu, Serbest Fırka Hatıraları'nda yakın dostu Fethi Bey'le partinin kuruluş aşamalarını, tartışmalarını, Gazi'nin kuruluşu ilişkin çabalarını, parti üzerinde yapılan bütün hesapları altüst eden ünlü "İzmir Hadiseleri"ni, İnönü ve çevresinin oyunlarını, TBMM'de SCF'ye yapılan hücumları ve partinin feshini anlatmaktadır. Oğlu Samet Ağaoğlu'nun önsözleriyle birlikte yayımlanan bu hatıralar, yakın tarihimizin saklı kalmış gerçeklerini öğrenme konusunda önemli bir kaynak sayılmaktadır.

Gün Zileli

Bir yazarın kendi yaşam öyküsünü anlattığı otobiyografi türü, Türkiye'de pek kaleme alınan bir edebiyat türü değil. Var olan otobiyografik eserlerin çoğunda görülen de siyasi, sosyal, kültürel olarak kendisiyle hesaplaşma cesaretinden yoksun metinler olmaları. Oysa Gün Zileli bunun açık bir istisnası: Şimdiye kadar yayımlanmış beş ciltlik otobiyografisinde hayatını neredeyse bütün detaylarıyla ortaya koymaktan çekinmeyen biri olan Zileli, bu altıncı ciltle daha önce 2000 yılına kadar getirdiği otobiyografisini tamamlıyor; yine tam bir açıklıkla, yine kendisiyle hesaplaşmaktan çekinmeden.

Kentlerde (2000-2013), Gün Zileli'nin hayat hikâyesinin İngiltere'den İsviçre'ye, oradan Türkiye'ye uzanan son kısmını ele alıyor. Bir "göçmen" olarak yaşamının getirdiği zorluklar, "dışarıda" yürütülen politik faaliyetler, komün hayatı, epeyce gelgitli gönül ilişkileri, on iki yıl sonra doğulan topraklara dönüş, dostlar, anılar, kırgınlıklar, kopuşlar, aşklar, kediler-köpekler... Tüm bunları dürüst ve sakınmasız biçimde anlatan Zileli, beri yandan diğer ciltlerde olduğu gibi, yine Türkiye siyasetine dair sözünü söylemeyi de ihmal etmiyor; analiz ederek, eleştirerek, yorumlamaya çalışarak...

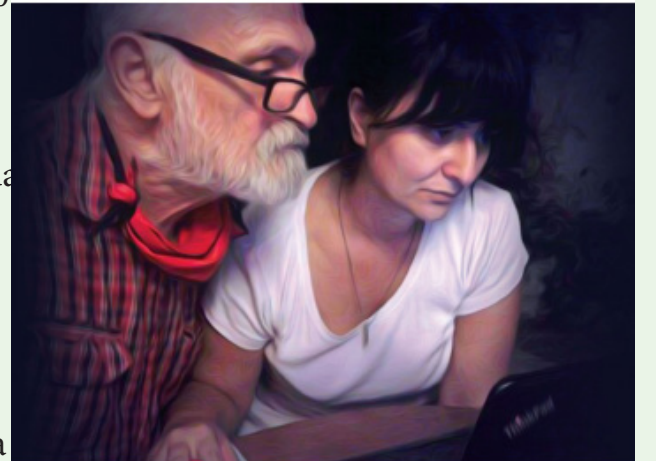

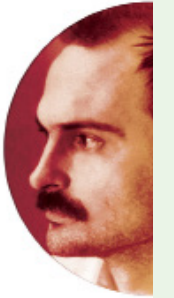

Kentlerde (2000-2013) "kendisi ve hayatı üstüne gerçekten düşünen" bir insandan samimi bir muhasebe.

Gün Zileli

24 Ekim 1946'da Ankara'da doğdu. 1960'lı yıllarda Yordam ve Soyut dergilerinde öyküleri yayımlandı. 1968 gençlik hareketinde yer aldı. 1990 yılında İngiltere'de siyasi sığınmacı oldu. 1992 yılında anarşizmi benimsedi. 2000'li yıllarda altı kitaptan oluşan otobiyografisini yazdı. Özellikle Sovyetler Birliği'ndeki Gulag kampları hakkında çeviriler yaptı. İstanbul'da yaşıyor.

Ahmet Abdulaziz

Koşuyorum, çünkü koşmayı seviyorum. Ama teknik olarak koşamıyorum, yani aralıksız koşamıyorum. Bu yüzden kendime koşucu da demiyorum. Ama doğrusu kendime koşucu demeyi de seviyorum. Onun için hem koşuyorum hem yürüyorum. Uzun yollarda, uzun mesafeleri böyle kat ediyorum. Bir kaç yüz metre koşmaktan sonra yorulduğum zaman koşmayı bırakıp yürümeye başlıyorum. Yürümekten usandığım zaman, veya daha doğrusu, kendimi daha güçlü hissetmeye başladığım zaman tekrar koşmaya başlıyorum. Böyle hem koşuyorum, hem yürüyorum. Ama buna teknik olarak ne diyeyim. Onu bilmiyorum. Çünkü bu ne koşma, ne de sadece yürüyüş. Sporun içinde böyle bir dal yoktur. Böyle bir dal olsada bile yine de ben o kategori için de tam olarak giremezdem. Zaten bu gibi sporlar genelde hıza endeksleniyorlar. Bütün koşular müsabaka olarak yani en hızlı koşan biri en iyi koşucu olarak kabul ediliyor. Bu yüzden zaten koşulara da katılmıyorum, çünkü ben kimseyle müsabaka içine giremem. Ben kendime daha sağlıklı ve daha fit tutmak için böyle farklı bir şekilde koşuyorum ve yürüyorum. Zaten müsabakalara girmek beni mutlu etmek yerine depresyona sürüklüyor, çünkü bitiş çizgisine yarış bittikten sonra ulaşan biri olarak her zaman kendimi çok kötü hissediyorum. Bu yüzden de tek başına hem koşuyorum hem yürüyorum. Bu beni daha mutlu ediyor. 13 Ekim 2018, Cumartesi günü Lefkoşa' dan Girne Ozanköy'e kadar (24km) koşacağım ve yürüyeceğim. Bu koşum CYPRUSSCENE.com ve NOSTRAW North Cyprus için olacak. Öğlen 12.00 civarında Gönyeli çemberinden başlayıp benim yürüyüşüm Boğaz' dan geçip Ozanköy'de Tim's Cafe de bitecek. Normalde Lefkoşa/Girne mesafesini ben 3 saatte bitiriyorum, ama bu Boğaz Piknik alanından Onar Village' e kadar yol tamir çalışması olduğu için ben daha fazla yürümek zorunda kalacağım. Ama ne yapalım, yolda koşarken güvenlik ilk tercihim oluyor. Saat 4.00 ve 4.30' da Ozanköy'de Tim's bara ulaşmayı hedefliyorum. Her şeyin iyi geçmesini umut ediyorum. Mevsim bulutlu olduğu için de benim için bu yürüyüş daha kolay olacak, ama eğer yağarsa ? bunu hala düşünmüyorum bile.
