My horse riding passion continues with The Ranch Cyprus!

'So, let's talk about it!'

By Peri Sualp

By Peri Sualp,,,,,

My love towards horses started with children's books and toys when I was a toddler.

Realising this love, my mum took me to a horse riding farm when I was 3, and then my love turned to a passion. In the beginning I was doing small rides with the stableman but I was begging them to give the horse to me so I could ride all by myself. Seeing my ambition, the instructors agreed for me to have lessons despite my young age. I started my horse riding lessons as young as 3 years old and continued at regular intervals until aged 7. That was when we were in Istanbul.

When we moved to Cyprus when I was 7, my mum tried to find riding schools here in North Cyprus. That was a difficult task! All the riding clubs here had some problems; either the horses were not good enough or even no riding horses at all, either the manège [fenced horse-riding arena] conditions weren't safe enough; or there were no instructors in the riding club, and so on. So, we tried almost every horse-riding club possible in North Cyprus but then my mum got fed up so we started going to the South.

For almost two years we went to a nice school regularly but it was a very long drive and scheduling the lessons was a disaster. Weather conditions in Cyprus are almost impossible to have lessons in winter and in summer and most schools do not have closed manèges for bad weather conditions or lighting to allow night lessons. The best possible seasons are spring and autumn.

For two years my concerts peaked up in both available seasons for riding therefore I had to give a break to my lessons for about two years. After all these years, having lessons back and forth, I couldn't manage to get my horse-riding licence. Even though I was busy with many things that I do in my life, my love and passion for horses never faded away! So, finding a suitable time, my mom started the horse-riding school search again hoping some things might have changed within these two years, and there, BINGO! "The Ranch Cyprus"

riding club in Karsiyaka, which is THE PLACE for me now! The horses are great, the manège is awesome and the owner and the instructor Jordan is a fabulous trainer and all the people there are really friendly. Jordan helped me to remember everything I already knew faster than the speed of light and I'm crossing my fingers to get my licence in January.

The Ranch is a small animal Petting Farm and Horse-Riding Club that offers both in-school lessons as well as outdoor hack tour experiences. They offer unique five-star rated, guided horseback trail experiences in the Girne-Vasillia Olive Groves and Mountain range. These can apply to both beginner or timid riders as well as the more confident and experienced. In turn, allowing all to relax, enjoy and take in all of the great views, landscapes, and scenery Cyprus has to offer. I experienced the horseback trail last weekend; it was absolutely awesome – can't wait to do it again.

Students can expect a fun and safe learning experience from their personable staff and team of much-loved school horses and ponies. Their program values horsemanship and students learn to groom and tack-up their own horses. Many of their riding school students have obtained their riding licences and progressed to be successful competitors and horse owners. Leasing and Livery packages

are available as well as monthly riding schemes. Please take note that all riding reservations must be made in advance; same-day appointments are not guaranteed.

One more note; I am surprised to find out that there are students from my school - English School of Kyrenia - going to The Ranch for their PE sub branch horse-riding GCSE exams. This knowledge proves the quality of the riding school. I am glad that finally I am on the right track for riding.

Çavuşoğlu: ‘We will not negotiate for the sake of negotiating

Çavuşoğlu: ‘We will not sit at the negotiating table just for the sake of negotiating on the Cyprus Issue’

Speaking at a budget planning meeting at the Turkish Grand National Assembly, the Turkish Foreign Minister Mevlüt Çavuşoğlu reminded that Cyprus was a national cause for Turkey and Turkey will not sit at the negotiating table just for the sake of negotiating on the Cyprus Issue.

Çavuşoğlu also stated ‘If a new

process will start, all ambiguous points must have been cleared in advance regarding the political equality of the two sides.

Çavuşoğlu reminded that Turkey, which has the longest shoreline in the Eastern Mediterranean, has legitimate rights and benefits in the western and northern maritime zones of Cyprus.

Minister Çavuşoğlu underlined ‘Our country has taken the necessary measures to protect those

rights and we will continue to protect both our rights and continental shelf and the rights of

the Turkish Republic of Northern Cyprus for which we are guarantor’.

Those responsible for burning TRNC flag have been identified

Deputy Prime Minister and Minister of Foreign Affairs Kudret Özersay announced that those who were responsible for the burning of the TRNC flag, during the ELAM demonstrations on the Greek Cypriot side on 15 November, have been identified.

In his statement on his social account, Özersay stated that the necessary information was given to the border gates.

Özersay made the following statement:

"At the initiative of our Ministry, the Police Department, who carried out the necessary research, identified those who are responsible for the burning of our flag. Information and instructions were also given to the police to carry out the necessary procedures for their crossings from the border gates"

TRNC is represented in Poland TT Warsaw 2019 Tourism Fair

The Ministry of Tourism and Environment is presenting the TRNC at TT Warsaw 2019 Tourism Fair, which is the most prestigious tourism fair of Poland within the scope of promotion and marketing of foreign tourism together with our country's tourism sector.

The fair is being held on 21-23 November 2019 at the Palace of Culture and Science in Warsaw. Every year, the fair is seen as a good opportunity for participants from all over the world to establish sustainable business relationships

and to catch up with the latest trends in the tourism industry.

Events such as presentations, conferences, training, and workshops are organized at the fair and attract the attention of professionals from Poland and other countries.

In addition, meetings with well-known travel representatives during the fair increase the interest of the visitors.

Visitors to the TRNC stand are being served grapes, sausage, roasted almonds, and pastelli.

Independence struggle of TRNC, dignity of Eastern Mediterranean

Russian strategist and political scientist Aleksandr Dugin stated that the existence of the TRNC in the Eastern Mediterranean becomes strong with the support of Turkey, adding that the EU's sanctions trying to be imposed in the Eastern Mediterranean on Turkey and initiatives towards isolation will not prevent the legal rights of Turkey.

In his speech at the conference organised by Bahçeşehir Cyprus University Research Centre of the

Law of Sea and Maritime entitled "Changing World Order: Blue Wars in the Eastern Mediterranean", Dugin said that the world departed from single pole inclinations and turned into a multiple pole conflict centre.

Furthermore, Dugin expressed "In the new term, China and Russia play a more dogmatic role. Turkey's role in this transformation is very important for global world order and the Eastern Mediterranean. I believe that the

existence of the TRNC in the Eastern Mediterranean becomes stronger with support of Turkey.

The independence struggle of the TRNC is the dignity of the Eastern Mediterranean".

Turkish Ministry of National Defence condemn TRNC Flag burning

The Republic of Turkey Ministry of National Defence condemned the burning of the TRNC flag during the demonstrations on the Greek Cypriot side.

In a sharing from the Twitter account of the Ministry entitled "the Flag is the honour of a nation," it was stated that:

"We strongly condemn the burning of the TRNC flag at the demonstrations on the Greek Cypriot side. These racist attacks encouraged by the Greek Cypriot administration will not be able to prevent the TRNC flag from fluttering on the island for all time".

Özersay: "The flag is a sensitive issue for all communities"

Deputy Prime Minister and Minister of Foreign Affairs Kudret Özersay stated that the flag is a sensitive issue for all communities.

Speaking at the TRNC General Assembly, Özersay said that everyone reacted regarding the burning of the flag and condemned this event by consensus and he also reiterated that the Greek Cypriot Head of Police was dismissed following the attack on Talat in the past and said that they want to see such reactions regarding this latest incident.

Pointing out that the flag is a sensitive issue for all societies, Özersay gave examples of events

that have taken place during history concerning the flag, and called for a step on this issue.

Speaking about the negotiation process, Özersay said that he believes that the process had failed in Crans Montana and added:

"If the negotiations had not collapsed in Crans Montana, we would not be talking about what will be the basic concept of the negotiations right now".

36th anniversary of establishment of the TRNC

36th anniversary celebrated

The 36th anniversary of the Turkish Republic of Northern Cyprus (TRNC) was celebrated with ceremonies and events.

Due to the 36th anniversary of the

establishment of the TRNC, an official parade was held at Dr.Fazıl Küçük Boulevard in Lefkoşa. The Republic Day was also celebrated with ceremonies in all districts.

Erdoğan congratulated 36th anniversary

Turkish President Recep Tayyip Erdoğan shared the congratulatory messages of the 36th anniversary of the TRNC from his social media accounts.

Erdoğan said in his message: "I congratulate the 36th anniversary

of the establishment of the Turkish Republic of Northern Cyprus and I commemorate the martyrs and hero veterans of the struggle for independence. As a motherland and guarantor country, we will continue to stand by our national cause of Cyprus and the Turkish Cypriots."

Oktay: "Turkey will continue to support the Turkish Cypriots"

Turkish Vice President Fuat Oktay attended the ceremony held at Dr. Fazıl Küçük Boulevard, Lefkoşa on the occasion of the 36th anniversary of the establishment of the TRNC and gave a speech.

In his speech, stressing that they have not forgotten the struggle of the Turkish Cypriots until the establishment of the TRNC in 1983, Oktay said that the TRNC is the guarantee of the rights of the Turkish Cypriots on the island.

Pointing out that the negotiations regarding the solution of the Cyprus problem have been continuing for half a century, Oktay said that Turkey spends all kind of efforts but a solution has not been reached due to the stance of the Greek Cypriot side.

Adding that, since the beginning, Turkey has supported the TRNC for the future of the Turkish Cypriots within the framework of the international law, and will continue to support, Oktay stressed: "Turkey will do its utmost for the TRNC".

Underlining that Turkey will never allow continuation of the current status quo in Cyprus, Oktay made a call to the international community to respect the history and the future of the Turkish Cypriots.

Expressing that they have stressed from the beginning that the hydrocarbon issue should be used as an opportunity for a solution in Cyprus, Oktay said that the drilling vessel Yavuz is active, Fatih has also started drilling in the area

south of Karpaz and Barbaros Seismic Research Vessel is continuing its activity in the zones licenced by the TRNC to the Turkish Petroleum Company.

Oktay also underlined that the decisions stated by the European Union regarding Turkey's hydrocarbon works in the Eastern Mediterranean are null and void.

Reactions to burning of TRNC flag by ELAM

Tatar: It should be known that the Greek Cypriots have preconditions that will destroy the Turkish Cypriot people for an agreement

Prime Minister Ersin Tatar made a written statement evaluating the latest developments in Cyprus.

Stating that prior to the tripartite meeting in Berlin to be held on November 25th, Greek Cypriot students were sent to the borders by the Greek Cypriot Administration and urged to show hostility, chanting slogans against the Turkish Republic of Northern

Cyprus and also the burning of the TRNC flag by members of the ELAM party, which is a member of parliament in the Greek Cypriot House of Representatives, could not be described and simplified as 'the activities of a group', Tatar said that all these incidents are a result of the understanding of a significant majority of the Greek Cypriot side.

Özersay: "We will take the necessary precautions after determining the identities of those who burned the flag"

Deputy Prime Minister and Minister of Foreign Affairs Kudret Özersay stated that they talked with the UN regarding the Greek Cypriot ELAM burning of the TRNC flag in South Cyprus and said that they will determine the identities of those who burned the flag and take the necessary precautions.

Özersay made a statement through

his social media account regarding the event and stated "I met with our Police General Director and Attorney General regarding ELAM burning of the TRNC flag. We will make initiatives with the UN to determine the identities and take the necessary precautions. Those who do not respect the flags and similar symbols of others are the ones who are far away from civilization."

Ankara condemns the burning of the TRNC flag on the Greek Cypriot side

Turkey has condemned the burning of the TRNC flag on the Greek Cypriot side on the occasion of the 36th anniversary of TRNC's establishment.

The statement made by the Turkish Foreign Ministry said 'We condemn the burning of the TRNC flag on the 36th anniversary of its establishment in the Greek Cypriot side and we give full support to TRNC authorities' statements regarding this incident.'

It was reminded in the statement of the Turkish Foreign Ministry

that the Greek Cypriot authorities have neither made any statement condemning this act of hatred nor have investigated the perpetrators and this demonstrates that this act has official support.

In the statement it was also said 'We believe that the Greek Cypriot Administration, as well as the Greek authorities, with their statements provoking hatred towards the Turkish Cypriots, have a responsibility regarding this incident.'

Under these circumstances, we

expect the international community to invite the Greek Cypriot side and Greece, to avoid rhetoric further deteriorating the atmosphere of

tension on the Island, as also mentioned in the latest report of the UN Secretary General.'

Walking around the historic walls of Istanbul

By Ahmet Abdulaziz....

I have frequently narrated my first visit to Istanbul in 1972. My father had brought his family (six people), by land route from Karachi (Pakistan) through Iran.

I was 17 years old then, and that was the beginning of my endless love for Turkey, Turkish people, Turkish language, Turkish culture in general and Istanbul in particular. So whenever I get some spare time, I prefer to visit Istanbul.

Subsequently over the years, whenever I go to Istanbul, I have taken time to revisit the places where we had been in 1972. The 17th November 2019 marked the 47th anniversary of my first visit to Istanbul, at the age of 17, in 1972. Luckily I was in Istanbul on this date. So it became another important visit for me.

I celebrated this anniversary by walking around the historic walls of Istanbul. Initially I had planned a run/walk mixture, as I had done on a number of occasions in the past, but this time I preferred to just walk, because I did not want to risk myself due to the ongoing problem with my back. But that was just an excuse, as the real reason was my new shoes. I had bought my new shoes just a day before, I did not want to risk any foot injury by running in

unaccustomed shoes. So I decided to walk.

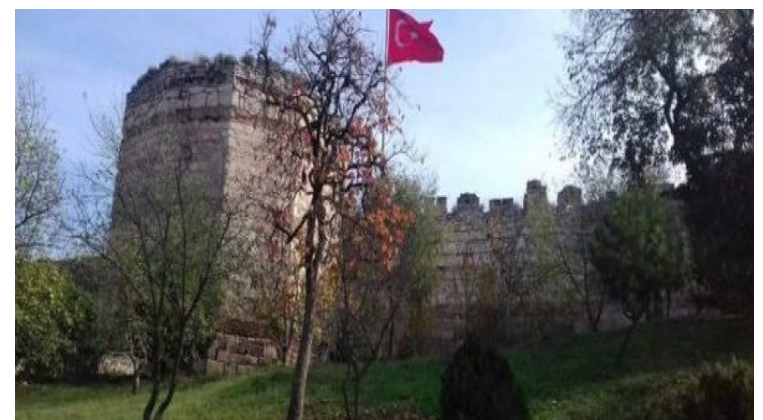

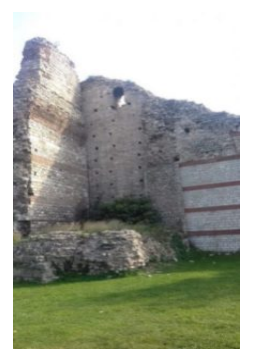

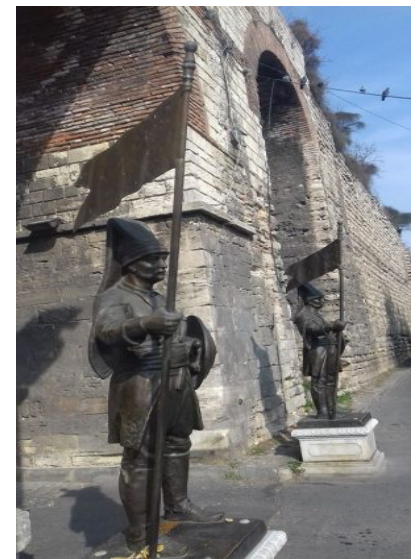

I started off at around 10 am, and finished the 23 km walk after 4 hours. It was the fifth time that I ran/walked around those walls. They are simply majestic. The actual length of the wall is 22 kilometers. Of this 5.5km faces the Galata area, 7.5km are on the land side towards Edirne and 9km towards the Marmara Sea. However the total distance that I walked was 23 km.

I started off from Eminönü, which is the starting point of the wall facing the Galata area. In the initial period of my walk, the weather was a bit cool, mostly because the sun was rising from the other side of the city, there was a light cool breeze. It was a brisk walk. When I turned left after finishing the first part of the wall, the sun was in front of me, and after a short period I started feeling hot. This 7.5km part was somewhat difficult, as the terrain was hilly. There were wide roads all the way, and I was walking on the pavement.

I passed by a number of old gates in the wall on my way. There is separate history of each gate. It was around midday, and the sun was shining. It was too hot, but I had to continue going.

The last part of the wall was on the Marmara sea side of the city. Though it still was very hot, a cool breeze from the sea had made my walk easier. I continued walking and taking photographs, and ultimately finished the walk in 4 hours at Eminönü.

Here are some of the photographs that I took during my walk.

Üstel received 2020 Olympic Hope Athlete, Yiğitcan Hekimoğlu

Minister of Tourism and Environment Ünal Üstel received the National Athlete Yiğitcan Hekimoğlu, who expressed his pleasure at being invited for the visit.

Hekimoğlu said that he is working for the goal of taking part in the Olympics in 2020, and while preparing for this it is important and valuable to be accepted by the state elders.

“It is an honour for us to prove the existence and integrity of the Turkish Cypriot in achievements in the international arena and to be a part of it. I am fully convinced that I can improve with the support of our country and our elders.”

Ünal Üstel, the Minister of Tourism and Environment, said that they have been following Hekimoğlu, who has achieved international success, and that they are proud of him.

Stating that Hekimoğlu has achieved success in many races so far, Üstel hoped that these successes would be a great example and motivation for young people in the country. He added that the Turkish Cypriot people are given the opportunity to see the type of achievements that could be achieved by young people and Yiğitcan is a model for our youth.

Explaining that, as a Ministry, they are ready to make all kinds of

contributions for Yiğitcan, Üstel said that there are many talented young people in the country and encouraging these young people is of great importance for the future of the country.

Yigitcan's successes are also important for the promotion of the country, and the Minister wished him success in his goal to participate in the Olympics in July 2020.

BALLAD OF A SEARCHING SOUL

By Nick Vye - Sanctuary

He was born into a life of woe,
Nobody liked him, he'd plenty of foes,
Life for him always seemed so hard,
He wasn't dealt with a lucky card,

There was always a very hard task,
He'd hide behind, like wearing a mask,
People pointed and jeered at him,
He felt like he had committed a sin,

His life he tried to keep straight and narrow,
But it always felt, like a flat tyre on a barrow,
And then as he started, to become a man,
He realized that God, had another plan,

Those he thought were his close friends,
Never came round, to make amends,
So on his journey, now to roam,
He packed up his bags and left his home,

There was for him a different path,
That might include, moments of wrath,
But he never felt any inner fears,
To him, it now seemed all so clear,

He met many teachers along the way,
It all seemed to blur, into a single day,
He suddenly realised what was his goal,
And instantly he knew, he had soul,

So sitting still, on a nearby rock,
His lifetime now, he took in stock,
A light before him, shone the way,
Myriads of colours, mixed bright and gay,

A single ray of light hit his crown,
Up he flew, without a sound,
There was joy, love and peace,
He felt a sudden, inner release,

All around him were angel faces,
Behind them were wonderful looking places,
Oh what excitement and what a thrill,
He'd made the journey, by his own free will,

A voice came now, inside his head,
Don't be afraid, you're not dead,
You've travelled outside your normal state,
It was all written down by the hand of fate,

But soon you'll have to go back down,
And walk the path, that you've now found,
We'll always be near and very close,
Every time you need, something the most,

Just close your eyes and focus on us,
And we will arrive, like the next bus,
In the next instant he was back down,
His feet on the path, walking new ground,

Inside of himself now, he felt a new man,
He would not be walking on shifting sands,
Now he felt self assured and so strong,
The end to his journey, would not be long,

A gentle smile now showed on his face,
He'd been granted and showed real grace,
So never give up, on that inner dream,
There's always some to play in your team,

Don't let life, lose you in dense fog,
Always remember, up there is God...

Christmas Day swim for charity at Acapulco Beach

Christmas Day 2018 at 10.00am saw a hardy and brave group of swimmers arrive at Acapulco Hotel beach for their big chilly dip.

This was a Christmas fund-raising event to raise donations in aid of Kemal Saracoglu Foundation for Children with Leukemia and Fight against Cancer, and Tulips – Help those with Cancer Association.

These brave folk are arranging another event to celebrate Christmas 2019, as follows :

A special message from Big Ted

Hi Everyone, I bet you have all missed me!

After leaving the Olive Press I spent a few days relaxing in Sue’s house though I’m not sure her husband was best pleased sharing a sofa with me as I do, unfortunately, take up quite a bit of space! It was lovely and peaceful so I now feel rejuvenated and raring to go to my ‘forever’ home.

On the morning of my trip I was put onto the front seat of the car, however, after a rather embarrassing police incident last week Sue decided to put me on the back seat because my head is too big and she couldn’t see the police in advance in the mirrors.

As we trundled along to Catalkoy we stopped at a few places then suddenly we stopped outside a school, panic set in as I thought I had been enrolled to study. What could I study? What does a bear of my calibre need to learn? Thankfully this turned out to be a false alarm and we were off again.

It was quite exhilarating seeing the journey that I had once taken previously but in a black bin bag stuffed into the boot. I saw the beautiful blue sky, the stunning mountain range and lots of idiots on the road ... at least that’s what my driver said.

I arrived at The Food Lodge and was instantly treated like royalty, Sonja and Latifa were so happy to see me again as I was to see them, I could 'bearly' contain myself. At least I smelled and looked a lot better than the last time they saw me.

I had my photo taken in a number of different positions (now don’t go getting any rude ideas!) but the best was yet to come, a Lemon Donut! I was in heaven and it is fairly obvious that these two ladies love me and I now know that I am going to be happy living here. I am being treated just as a celebrity bear should be.

I am still waiting to see Olive the Cat, I did think that she would have made an exception to be here

when I arrived but we will have plenty of time to make up for lost time.

I’m in prime position to watch the film nights and I know I will get even more attention on these nights.

I would like to say a huge thank you to Bestmar Supermarket and the Olive Press for giving me a temporary home whilst my permanent one was being renovated and for looking after me so well. I would also like to thank

them and their clients for helping me raise a fabulous **1,546TL** in my box.

In the meantime, please pop into The Food Lodge and come and visit me anytime you wish and see my own personalised pink certificate for supporting pink month.

Take care everyone and thank you for all your concern and good wishes

Lots of love
Big Ted xxx

We invite you all to attend and join us in what promises to be a fun filled day to kick start the holiday season all in support of H4P.

The lovely Denise Phillips & Can Gazi will be supporting us and at their usual best on the day and we have a surprise Santa in our Grotto. There are stalls to delight everyone from children to adults with festive displays, goodies, raffles, face painting by Faces and Fun by Zoe, a mini auction etc. all in a friendly and welcoming environment.

We are looking for cake, mince pies, jam and lemon tarts, pies, tombola, children's tombola and raffle prizes if you can help at all and we look forward to seeing you all there x

*Please note ~ parking will be over the road by the football stadium but stallholders can pull up in front of the hotel to unload before parking up *

Post by Emma Eminsoy 20th November

This big grumpy boy has been in our road for eight years. He's been the only cat that has never succumbed!!

He comes for breakfast and dinner and his Dreamies at snack time but will never let me touch him. I can't even get close enough to put on a Broadline.

Finally yesterday his reign was over!! 1-0 to me. His testicles are gone!!! But he was still grumpy even under sedation!

Their lovely foster Mum is doing a fabulous job. Thank you but we do need to find homes for them all in the not too distant future. Will you be one of the lucky people to offer one of these special pups a home?

These two beautiful puppies who we have recently posted about are still in need of homes please. H4P have already provided initial vet checks, worming, flea treatment and their first vaccinations.

We are now asking for financial support to continue their essential and continued vaccinations. We are asking for just 280 tl per puppy. In total only 560 tl to ensure they are both protected from disease and possible death.

Homes are of course needed and anyone who will help in any capacity can contact us if you would give a warm and loving home or donate for their vaccinations by any of the links shown under Dottie or directly to Vetpetite in Karakum stating Serhan Pups.

TRNC fight against drug addiction

A protocol was signed between the Ministry of Health and Pink Mansion Psychiatric Hospital. Drug addicts can now be referred to the Pink Mansion hospital for treatment and 80 percent of the treatment costs of patients will be covered by the State.

Minister of Health Ali Pilli, President of the Anti-Drug Commission Hasan Karaokçu and his team, serving in the fight against addiction, visited the Pink Mansion Psychiatric Hospital in Karsiyaka.

Minister Pilli toured the hospital and received information about the work carried out from Pink Mansion Psychiatric Hospital Chief Physician Dr. Mehmet Çakici and hospital founder Hüda Hüdaverdi. Minister Ali Pilli had lunch with the patients who were being treated and rehabilitated at the hospital and had the opportunity to have contact with the patients and chat.

Speaking during the visit, Minister Ali Pilli emphasised that they are very determined to fight addiction and reintegrate dependent patients in our country. "It is our obligation to ensure that our young people who have financial problems are treated with state support".

Due to the lack of rehabilitation centres in our country, addicts who have wanted to receive treatment have had to pay large sums for treatment abroad for years, and the people who have no financial means cannot be treated.

Dr. Mehmet Çakici said, "Our Minister of Health has taken an historic step to provide treatment for dependent patients in our country with the support of the State and signed this protocol. The treatment of our addicts is very

important for us because unfortunately our addicts are involved in traffic accidents and crime, they become the tools of drug dealers, families, burrows and many young people die as a result of drugs".

The Minister of Health drew attention to the fact that alcohol and substance addiction is one of the biggest problems in our society as well as all over the world. He said, "States give priority to the fight against addiction and social problems. In our country, we give serious importance to this problem with the Anti-Drugs Commission established under the Prime Ministry. As a person who has seen the negative effects of addiction problems in my 35-year career, I am a person who knows the importance of combating addiction".

Stating that he visited the Pink Mansion Psychiatric Hospital for the second time, Minister Pilli stressed that the physical structure of the centre is good and that it is served by experts and professionals in the field. Minister Ali Pilli pointed out that the most important part of rehabilitation and treatment is that the treatments are given by

professional people. He said that Dr. Mehmet Çakici is a person who has made great contributions in the fight against addictions in our country for many years.

"I sincerely believe that Pink Mansion Psychiatry Hospital will be beneficial for our society. Professor Dr. Mehmet Çakici's achievements in this regard have been known by our society for years. We, the Government and the Ministry, want it to be known that we will support and contribute to every step taken in the fight against addiction. This is an initial step and many more steps will be taken in the fight against addiction in the coming periods.

With the fight against alcohol and substance dependence to be established by the state in the coming periods, the cooperation with the Pink Mansion Treatment Centre will continue. We are highly committed to combating addictions and reintegrating dependent patients in our country. It is our debt to ensure that our young people who do not have the finances are treated with state support".

TRNC fight against drug addiction

Stressing that this cooperation is only a first step, Minister Pilli said that many more important steps will be taken in terms of combating addictions in the coming period.

President of the Anti-Drug Commission Hasan Karaokçu said "We are very happy if we have contributed to an historical step in the fight against drugs. Since we took office, we have fought hard for treatment and rehabilitation. I have been working with the fifth government during my five-year term and we have fought this issue in every government term. Although there were many tides, we could not implement this project and unfortunately we lost many young people in this process."

Hasan Karaokçu emphasised that they can shed a light to the painful and afflicted families who applied to the Anti-Drug Commission. When the Minister of Health came to his office, he told me: 'I came to this duty to perform. I will continue this determination to the end and if I do not succeed, I will go back to my clinic'.

Stating that both the drug addicts and their families suffered greatly, Karaokçu said that drug addicts had been treated at the Peace Mental and Neurological Diseases Hospital in the hope that drug addicts might stay away from drugs, but these attempts failed every time.

Hasan Karaokçu, stated that there is a truly modern and fully equipped rehabilitation centre in our country, and said: "We have fought for years not to send our drug addicts to prison. Although

we faced great resistance, we ensured the legalisation of probation but due to the lack of a rehabilitation and treatment centre, drug addicts who could not be treated or failed in this process were sent to prison at the end of the day. I now believe that the Probation Law will work more efficiently."

He added that an important step in the fight against drugs is through education. Past Education Ministers in this regard cannot provide any progress in the fight against addictions and criticised that the issue cannot be added to the curriculum.

Dr. Mehmet Çakici said he was honoured with Health Minister Ali Pilli's visit to the Centre and stressed that a great step has been taken in our country after many years to fight addiction.

In accordance with Minister Ali Pilli's request and suggestion, a protocol was signed between the Pink Mansion Psychiatry Hospital and the Ministry of Health with a decision taken by the Council of Ministers on 26 September. Hasan Karaokçu, President of the Anti-

Drug Commission, also contributed great support and effort in this regard.

Mehmet Çakici said, addicts can now be treated with the support of the State and 80 percent of the treatment costs of patients referred to the Pink Mansion will be covered by the State. After the Pink Mansion was put into operation, Mehmet Çakici said that the addicts who escaped hospitalisation under normal conditions are now lining up to receive treatment and that they apply for treatment at the Pink

Mansion with the support of the State.

During a four-month period, patients from Denmark, Jordan, Cyprus and Belgium have applied to our centre as well as patients in our own country. In fact, we are also doing health tourism here. We have reversed the situation for the first time, and instead of sending our citizens abroad for treatment, we have now managed to bring foreign nationals to our country for treatment, which is a big step forward.

CESV/112 donate medical equipment to more health centres

Great news from the CESV/112 Civil Emergency Service Volunteers who continue to raise funds to supply medical equipment to the North Cyprus ambulance services and long may it continue.

Tuesday 19th November 2019

Another delivery of Medical supplies this time to the Degirmenlik and Serdarli Health Centres.

Thank you to Erman for making the deliveries today on behalf of CESV/112

Would you like to help the CESV/112 Volunteers. They are a group of ex-pats who voluntarily wish to give back something to our

community and we carry out First Aid Training to the Police, Firemen, Nurses, and Ambulance Drivers. as well as supplying Medical Equipment to clinics and Ambulances.

They are also carrying out more and more First Aid Training Courses to Schools, Colleges, Universities and Businesses.

They need more volunteers, Male or Female to help with the Training and Fundraising.

If you would like to help, THEY NEED YOU. All Training will be given, so do please contact Allan by email on : CESV.admin@gmail.com

TRNC Dentists provide service to protect public health

The Ministry of Health continues its services in the direction of preventive oral and dental health. The 22nd November is Dentistry Day and is celebrated with 20th-26th November - Oral Dental Health week.

The physical health of individuals is affected with the health of all organs and tissues in the body. For this reason, factors that affect oral and dental health directly affect the individual's body health.

Tooth decay and gum diseases cause many problems. It is of great importance to raise awareness of our society on oral and dental health, to take precautions and to treat them.

As the Primary Health Services Department of the Ministry of Health, our services for preventive oral and dental health continue.

Dental outpatient services are provided by 17 dentists in 13 centres including : İskele, Değirmenlik, Çamlıbel, Güzelyurt, Yenierenköy, Serdarlı, Lefke, Lapta, Akdoğan, Mehmetcik, Dipkarpaz Health Centers and Maraş District Polyclinic and Trenyolu Polyclinic of the Primary Health Services Department.

In addition, Hygiene and Oral and Dental Health Training is conducted in all primary schools from kindergarten to 5th grade within the framework of a determined program.

We would like to take this opportunity to congratulate all dentists on the 22nd of November.

Near East University celebrates World Prematurity Day

By Ahmet Abdulaziz....

In relation to the "World Prematurity Day", on 17th November, the Near East University Hospital and Dr. Suat Günsel University of Kyrenia Hospital, organised an event to increase awareness about health and care of the children born preterm and immature.

The event was organised with the motto "A Sapling for Each Premature Baby in order to Grow-up together and to be a Breath for them".

Delivering a speech regarding the meaning and importance of the

World Prematurity Day, Near East University Hospital Pediatrics and Neonatal Intensive Care Specialist Assoc. Prof. Dr. Ceyhun Dalkan stated that raising awareness about babies born prematurely and the challenges faced by them and their parents constituted the core of the event.

Highlighting that every newborn has the chance to live a healthy and productive life, Assoc. Prof. Dr. Ceyhun Dalkan expressed his happiness of seeing the babies born preterm growing up healthily. "Today is 17th November – the World Prematurity Day. It is the day of the babies born preterm, who still need the warmth and affection

that they used to have in the womb. Approximately 8-10 percent of all births in the world and in our country result in preterm births. Since premature babies need specialised care addressing their developmental, emotional and medical needs, it is of great

importance to have the delivery at the right centres that can provide specialised care. In this regard, specialised care received at the right centre ensures the conditions required for the preterm baby to grow-up and develop in a healthy way" he noted.

Near East University organised mega art exhibition

By Ahmet Abdulaziz....

Near East University (NEU) recently organised a mega art exhibition comprising of 3 solo exhibitions consisting of 65 artworks of Kazakhstan artists Aytkali Zhaisanbayev, Botagoz Tolesh and Yergali Palymbetov, a group exhibition consisting of 43

artworks of Kazakh artists Muldir Sagyndykova, Nurbek Zhardemov, Oralbek Kaboke, Altynshash Alpysbayeva and Salimgale Myrz'ev, and a group exhibition consisting of 21 artworks of Azerbaijani artists Asmer Narimanbekova, Jamal Rahmanli and Rafael Aliyev.

According to the information released to the press by NEU, the Vice-Rector Prof. Dr. Tamer Şanlıdağ in his opening speech said, "Today we are together with artists from many countries within the scope of the Cyprus Museum of Modern Arts project providing freedom in creativity and uniting the world art in this geography, we are together at the opening of group and solo art exhibitions of Kazakh and Azerbaijani artists".

Speaking on behalf of Azerbaijani artists, Rafael Aliyev said, "On behalf of the Azerbaijani artists

participating in the Cyprus Museum of Modern Art, we are grateful to Dr. Suat Günsel and the project management for all the opportunities and creative work environment they have provided us with."

Aliyev stated that they were honoured to participate in the Cyprus Museum of Modern Arts and that each participant of the project contributed to the culture of the Turkic world by leaving their creative works to the Museum "With all my heart, I wish you all success, prosperity and good luck."

Esentepe youngsters record good win

By Richard Beale

Before this match Dörtol young team were in 4th place and Esentepe in 5th place, as expected the match was very even with Esentepe just shading it in the end.

The warm up to the main event, provided good entertainment as with only one place separating the teams, as expected this was always going to be a very close fought affair.

Both teams served up a first class support act, played very competitively, with not a lot between the two sides but in the end Esentepe did just about enough to leapfrog their opponents in the League.

Esentepe took the lead in the 22nd minute with a goal from SEMIH ARSLAN, returning from a long lay off through injury. The tall midfielder was on hand to flick on an İsmet free kick, which crept in at

the Dörtol far post. **1-0.**

Two minutes later Semih returned the compliment setting up İshmet whose shot went over the bar. in the 40th minute Dörtol almost levelled the score when a long free kick from Ahmet Can struck the Esentepe cross bar before being scrambled away for a corner.

In injury time of the first half Ege Can held the ball up well before putting in GÖKDENİZ KOL to finish past the keeper **2-0.**

The same combination with the last kick of the match nearly scored again, but goalkeeper Velihan managed to block Gökdeniz shot.

HALF TIME SCORE : 2-0

Following slack defending from Esentepe Gürkan Fidan, despite being challenged by three Esentepe defenders, got in a shot that hit the post before rebounding to safely.

Ege Can Açıkportali was proving a handful to Dörtol as the young forward went on a run past three defenders before seeing his shot blocked by goalkeeper Velihan.

53 minutes in Semih went on a run on the left and saw his cross shot pushed onto the bar by Velihan and rebounding to Gökdeniz Kol who shot wide from a good position.

63 minutes Esentepe should have made the game safe when Gökdeniz was brought down by goalkeeper Velihan. The goalkeeper made amends by brilliantly diving to his

right to block Semih penalty and did amazingly well in blocking the Esentepe midfielder follow up shot.

Esentepe would pay dearly for this miss as Gürkan Fidan on the left outstripped Devran before sending over a low cross which was put away by KENAN. **2-1**

It was all Dörtol now but eventually Esentepe weathered the storm and came away with 3 thoroughly deserved points.

Geçitkale made to work hard for their Win

By Richard Beale

Sunday November 18 : BTM League Red Group : Geçitkale Stadi.

It took two goals from Geçitkale's defender KORAY KELEŞ to overcome a dogged and plucky performance by bottom club Yarköy.

Taking advantage of an 11-00am kick off on a glorious sunny November morning, I decided to visit Geçitkale's new Stadium for the first time. I say new Stadium, but what they have done is installed an artificial surface and floodlights, the old terrace is still the same. However it still looked impressive on this bright sunny morning that attracted a good crowd.

Yarköy have lost all of their matches this season, being firmly anchored at the bottom, but they did not play like a team in that position, or maybe Geçitkale were having an off day.

The first half was pretty even going in all square at the interval. In the second half Yarköy were not so effective and gradually Geçitkale got on top, eventually taking the lead. In the final 10 minutes Yarköy made a spirited attempt to save the match, without really putting any real pressure on the Geçitkale goal.

MATCH HIGHLIGHTS :

13 mins : Geçitkale Müdijat on the left did well to send an overhead kick across the goal area, where Nazımcan headed over the bar.

25 mins : Yarköy almost opened

Result: Geçitkale GSK 2 Yarköy PGSK 1

Geçitkale FIRAT KULLE (white shirt) in action

the scoring when their Captain Ekrem Aktaş, unmarked outside the area, tried his luck with a speculative shot, which crashed against the Geçitkale crossbar before being cleared.

30 mins : Geçitkale squandered a great chance when Müdijat on the right sent over a cross to the far post, where Mustafa Bal in a good position sliced his shot wide.

31 mins: Yarköy immediately attacked at the other end and the Geçitkale goalkeeper Gürcan was forced into a smart diving save from a shot from Ekrem Aktaş.

35 mins : The deadlock was finally broken, when Geçitkale were awarded a free kick just outside the area. Their burly defender KOLAY KELEŞ took the kick, swerving it round the wall and into the top right hand corner of the net, giving the Yarköy goalkeeper Murad no chance. **1-0**

37 mins : Yarköy immediately equalised through OSMAN GÜN, the right back stole into the box before beating Gürcan with a low shot. **1-1**

For Geçitkale midfielder Hüseyin Özbilen was showing some nice touches in midfield. Winger Müdijat Arsantas was also working hard, providing crosses for the forwards. For Yarköy Ekrem Aktaş was looking lively upfront.

HALF TIME SCORE : 1-1

53 mins : A cross from the left from Müdijat went across the Yarköy goal without anyone managing to get a touch to it.

64 mins : A poor pass in the Yarköy penalty area was pounced upon by Müdijat who looked certain to score with only the goalkeeper to beat, that keeper Murad bravely dived at the Geçitkale forward's feet to prevent a certain goal.

Yarköy "seemed to have shot their

bolt", as Geçitkale appeared to be getting on top and it was another goal from KORAY KELEŞ that clinched the match for Geçitkale in the 70th minute. From a free kick on the left taken by Müdijat, the Geçitkale defender flicked the ball on with his head and the ball crept into the Yarköy's left hand side of the goal. **2-1.**

Yarköy bravely came back in the final minutes of the match but were unable to find the equaliser.

FULL TIME SCORE : 2-1

Blankety Blank! Esentepe v Dörtyol

By Richard Beale

Saturday November 16, 2019 : K-Pet League 1 : Esentepe Erdal Barut Stadium.

A typical "derby match", competitive, ferocious, no love lost, no quarter given or asked for. in the end in a close fought match a draw was inevitable.

My pre-match preview was nearly right, I predicted a close affair with the end result would probably be a draw (I said 1-1). I also predicted that Dörtyol supporters would come in their coach loads and turn the Esentepe Erdal Barut Stadium into a sea of "green and white". Sadly no, Dörtyol fans must be "homers" as only a small contingent of their massive following turned up for this match.

Basically two strong defences dominated the match, the midfield cancelled each other out. Both teams have found goalscoring a problem this season, both teams are in need of a "midfield general" to unlock the tightest of defences. Sadly this match did not deliver, plenty of effort, you cannot fault both teams for that. It was missing a "maestro, a conductor to orchestrate a little bit of flair in this match.

For the newcomers to the League, Dörtyol, this was a point gained, for Esentepe this was two points lost

MATCH HIGHLIGHTS :

Esentepe started the match brightly, dominating the opening 15 minutes, the only surprise was that they did not score in that period.

Result: Esentepe KSK 0 Dörtyol SK 0

Eyes on the ball! (Dörtyol in green).

4 mins : Şükrü fastening onto the ball on the left, cut inside leaving defenders trailing before crossing to the near post, where Yakup got in a close range shot that was brilliantly tipped round the post by the diving Süleyman.

9 mins : Dörtyol replied with a shot from outside the area from Ayberk who brought a diving save from Onur.

12 mins : Esentepe two youngsters Öükrü and Mustafa Günlü combined well before the latter went into the box with only goalkeeper Süleyman to beat. The winger lifted his shot over the advancing goalkeeper only to see his effort somehow brilliantly headed off the line by Mustafa Tekpınar who got back to defend his line - world class defending!

After the opening 15 minutes dominated by the home team, Dörtyol got their act together forcing three corners which did not trouble the Esentepe defence. The remainder of the half was a disappointment as both teams

cancelled each other out.

HALF TIME SCORE : 0-0

58 mins : The hardworking Eray for Esentepe held the ball up well before creating space for himself and fired just over the Dörtyol crossbar.

60 mins : Esentepe had valid appeals for a penalty when Mustafa Günlü had his legs taken away from him by Mustafa Ali Arslan, but Referee Hüseyin Özkan was not impressed and waved play on.

66 mins : Likewise Dörtyol had penalty claims turned down as Ayberk appeared to be brought down by Uğurcan.

77 mins ; Ayberk for Dörtyol took a free kick from just outside the area which went just wide of Onur's goal.

90 + mins : In injury time Esentepe were indebted to their goalkeeper Onur in making sure

the home team came away with a point. Ayberk on the right cut inside along the area line, before squaring the ball up for Furkan Zengin who looked certain to score, but Onur flung himself to his left to push the ball away for a corner. Even Dörtyol players congratulated Onur at the end for his brilliant save.

FULL TIME SCORE : 0-0

SUMMING UP :

A fair result, a robust, blood and guts match, all smiles in the beginning, before the players started kicking their "friends" up in the air! 7 bookings, there is nothing like a "derby match".
