Özersay : Clearance of the structures placed near crossing points

Deputy Prime Minister and Minister of Foreign Affairs Kudret Özersay asked for clearance of the structures for portable heavy weapons that were placed near the crossing points.

Minister Özersay indicated the dissatisfaction about the issue to the Special Representative of the Secretary-General (SRSG) in Cyprus and Head of UNFICYP Elizabeth Spehar and also sent a letter to the United Nations Under-Secretary-General for Peace Operations Jean-Pierre Lacroix and asked for the structures to be cleared away.

In his letter, Deputy Prime Minister and Minister of Foreign Affairs Kudret Özersay pointed out that the Greek Cypriot Administration is violating the UN Security Council decisions and the

military status quo while threatening the lives of the civilians by placing those structures.

In the statement made by the Deputy Prime Ministry and Ministry of Foreign Affairs it is indicated that with this attitude Greek Cypriot Administration has put a step forward for their aim to increase the tension in the island.

The statement also noted:

“Recently, two structures for portable heavy weapons have been placed near Yeşilirmak crossing point by the Greek Cypriot Administration. Yeşilirmak crossing point is a widely-used crossing point by civilians from both sides and it has been confirmed that a similar military construction has been deployed near Mansura which is on the road to Erenköy. Since the Greek Cypriot Administration is

preventing us carrying our supplies to Erenköy military area by using the pandemic excuse for four months, although it is against the Yeşilirmak Agreement, their recent attitude is evaluated as their aim to gain military superiority in other areas and this issue remains under investigation.”

BRS News of Health and Residency 4th July 2020

The British Residents' Society published very important news on 4th July 2020 with the latest information provided through their ongoing liaison with the TRNC authorities about the Coronavirus Regulations and Residency which we are sharing for other readers who are seeking the latest facts and information.

4th July 2020

NEW INFECTIONS IN TRNC

Unfortunately, we now have seen new COVID-19 infections here, from flights from Turkey and arriving in Girne on the Ferry. The Government have isolated the individuals and have also begun track and trace on other passengers.

We will circulate more information once it has been confirmed.

PLEASE REMEMBER TO 'REVERT' TO BASIC HEALTH INFORMATION REGARDING THE WEARING OF MASKS AND REGULAR HAND WASHING.

RESIDENCY

Since the new ONLINE system has been operating, we are aware of

certain concerns and anomalies which have arisen. As a result, we have attempted to provide as much information as possible to assist and have now provided both a text and pictorial guide for your information. Both of these guides will be updated as and when there are changes.

We will soon be issuing a FAQs document in relation to the most common issues surrounding the new system – once we have clarified the issues with the Immigration IT department.

Should you still require further information either contact us via the website or attend one of our clinics to get assistance.

The upgrade to the system to incorporate a facility to select a Private Medical Insurance Policy and upload the documentation has not yet been made. If you wish to use such a policy to support your Residency Visa application, then your only option remains to wait for the upgrade to be made.

An anomaly has also been identified in relation to payments for the State Insurance Scheme. If you submitted your Residency Visa application prior to the introduction of the new on-line

system, and have to follow the old route of making your payment via the Koop Bank, then going to the Health Ministry to register the payment, you will be obliged to pay 382TL for one year or 764TL for two years.

However, if you have applied for your Residency visa through the new on-line system, you will only be asked to pay 340TL for one year and 680TL for two years. Apparently for technical reasons the on-line Residency visa system will not reflect the higher figures until September.

Payment of Health Insurance and Blood Tests online is also proving inconsistent, although we are

advised that both TRNC and UK bank cards are acceptable but that these cards (TRNC issued cards) must be authorised by the issuer for online transactions.

I have attached below an 'Online Residency FAQs' document which goes as far as we have verified information on.

ONLINE RESIDENCY SYSTEM FREQUENTLY ASKED QUESTIONS

The remainder of the newsletter is lengthy so we give our readers the option of reading this online or downloading. See link shown below:

Editor's note:

For those readers wishing to learn more of the British Residents' Society and registration as a member please use the link shown below :

10th to 16th July 2020

TRNC Ministry of Health decisions for entry/departure

The following decisions have been taken within the framework of the decision of the TRNC Council of Ministers regarding COVID-19 precautions and under the direction of the authority of Infectious Diseases Law given to the Ministry of Health.

Starting from 5 July 2020, the TRNC citizens who work in the Greek Cypriot side or have education, Maronites who live in the TRNC and the Greek Cypriots who live in Karpaz will have to present a negative PCR tests carried out within 72 hours before entering the TRNC through border gates. This decision will also be valid for those who stay or live in the Greek Cypriot side. Those mentioned above must have PCR tests carried out every 15 days in South Cyprus or in the TRNC.

Starting from 5 July 2020, those who want to come to the TRNC from the Greek Cypriot side, whether they are TRNC citizens or not, must certify that they have been residing in South Cyprus for the last 14 days and have a negative PCR test carried out within 72 hours before entering into the TRNC and thus they will not have to be under quarantine. If they have travelled to another country from South Cyprus in the last 14 days, on their return the conditions of the country which they visited will be applied to them.

Starting from 5 July 2020, whether TRNC citizens or not, the following conditions will be applied for everyone who wants to come to the TRNC.

Source : TRNC Public Information Office

CATEGORY A:

Conditions: All passengers from the following countries will have to present PCR tests carried out within 72 hours to enter into the TRNC without being under quarantine. Those who do not present negative PCR tests, will be taken into quarantine until the Ministry of Health carries out their tests and the results are released. Their PCR test and quarantine costs will be paid by themselves.

CATEGORY B:

Conditions: Passengers coming from the following countries will have to have PCR tests done within the last 72 hours before departure from their own countries and they have to certify that the result is negative and their second PCR test will be done by our Ministry after they arrive in the TRNC. This condition will be applied as 'PCR tests will be done before 72-120 hours (3rd, 4th and 5th days) after 8 July 2020.'

Transfers of passengers to the hotels will be done by the related hotel authorities. Tourists are obliged to obey the quarantine rule in their hotel rooms until their PCR test results are released. Hotel authorities will have to undertake the supervision of their quarantine process and criminal proceedings will be initiated if otherwise is detected. These conditions will be supervised by the Ministry of Health and Police Authorities.

Those who will stay at their own homes have to stay isolated until they are informed that their PCR test results are released. Criminal proceedings will be initiated if otherwise is detected.

Transportation cannot be considered separately from tourism

Tourism and Environment Minister Kutlu Evren met with the Turkish Cypriot Public Transport Association officials, chaired by Menteş Aytaç.

During the meeting, made within the framework of the courtesy visit, the problems of public transportation were also discussed.

Menteş Aytaç, the President of the Turkish Cypriot Public Transporters Association, stated that they have decided to go to a new formation due to many problems. Stating that they believe that they will create a new union and create new excitement and motivation, Aytaç said that they want to give information about the activities and problems of the union with the visit.

Tourism and Environment Minister Kutlu Evren expressed his pleasure to welcome the Turkish Cypriot Public Transport Association officials and wished the union to be successful.

The Minister said “Transportation is one of our important sectors that cannot be considered separately from the tourism sector. In the COVID-19 pandemic process, many sectors in our country, as in the world, are experiencing economic difficulties. There is no doubt that the tourism sector is at the forefront of these sectors. Transportation, which we regard as an important service sector for the tourism sector and which cannot be considered separately from tourism, was also among the sectors most affected in this period.”

Tourism and Environment Minister Kutlu Evren stated that they have taken some economic measures as a government and will continue to take additional measures with consultations with the sectors in order to overcome the economic contraction in the

country due to the pandemic and accordingly the negative impact of the sectors in this process.

Turkey and TRNC ready for sharing and cooperation

Following his meeting with the EU foreign policy chief Josep Borrell in the capital Ankara, Turkish Foreign Minister Mevlüt Çavuşoğlu stated that Turkey will support the EU's mediation on energy resources in the Eastern Mediterranean as long as it is an honest broker.

Adding that Turkey wants to establish a more positive atmosphere with the EU,

Çavuşoğlu stressed that Turkey has expectations for the Term Presidency of Germany and the EU is expected to come closer to Turkey within the framework of the EU's common assets and objective criteria. He added that Turkey has always been fair and transparent in its relations with the EU and expects the same from them.

Mentioning the hydrocarbon

resources issue in the Eastern Mediterranean, Çavuşoğlu said that Turkey has responsibility to protect both the rights of the Turkish Cypriots and Turkey. Upon a question regarding the energy resources in the Eastern Mediterranean, Çavuşoğlu pointed out that the main reason of the problem is the Greek Cypriot side conducting unilateral seismic research and drilling activities by disregarding the rights of the Turkish Cypriots in the region.

Emphasising that Turkey warned the EU many times and, due to the warnings being disregarded, sent drilling vessels to the region, Çavuşoğlu said that in order to show flexibility on the issue, Turkish Cypriots' rights for the income of hydrocarbon should be guaranteed. “The TRNC has a proposal on that issue. A commission can be established.

Furthermore, we have shared our views on alternative solutions. These can be via an EU mechanism or via private companies” Çavuşoğlu added.

Pointing out that the Greek Cypriots are indulged due to unconditional support by the EU, Çavuşoğlu made a call to the EU to support a solution. Expressing that Turkey is ready for cooperation with all countries, mainly with Greece, except the Greek Cypriot side, Çavuşoğlu stressed "Supporting Turkey on the one hand, but not complying with requirements will not resolve problems. We as Turkey give support for the EU being a moderator but they should be honest. We are ready to work with the EU if they agree to cooperate.

10th to 16th July 2020

Girne Municipality reports clean water on beaches

Girne Municipality have reported that the Kervansaray Public Beach and Antis (Karaoğlu) Municipality Beach, results of the analysis were that they are clean.

In the explanation made by the Municipality of Girne, it was announced that samples in respect of "E-coli enterococci" were used from the public beaches and the coastal regions of the Municipality.

The Mayor of Girne, said that the analysis of the seawater from the Kervansaray Beach and Antis (Karaoğlu) Municipal Beach, was carried out based on EU standards, and the "E coli enterococci" scans appeared "0" and that the people could safely enter the sea in the region.

Youth Workshop in Girne “Protect Distance, Enjoy Life”

Girne Municipality and GİGEM have organised a youth workshop with new conditions. The deadline for registration to the workshops to be held with the theme of "Keep your distance, enjoy life", "Production" is 13th July 2020.

Organised in cooperation with Girne Municipality and GİGEM (Girne Youth Development Center), youth workshops are being held this year with the slogan "Keep Your Distance, Enjoy Life" and the theme of "Production". In the information given by the Municipality of Girne, it was stated that participation would be accepted for a limited number of workshops to be held this year due to small groups and measures implemented, taking into account the activities and postponed events throughout the city and various

restrictions. Distinguishing from Social Life is providing various problems

Girne Mayor Nidai Güngördü stated that it is planned to hold children's and youth workshops organised in the summer every year in accordance with the measures to be taken this year and the social distance rule. Güngördü reminded us that there is a great concern in society due to the epidemic in the world and in our country, schools closed early, as well as social life.

Considering that especially for the children and young people in the risk group, their separation from social life may also cause psycho-social problems, and he said that it is their duty to carry out studies in order to prevent anti-social behaviour as a result of this.

Workshops will be carried out in the framework of new conditions

Güngördü said, "Our children and young people have also been affected negatively from this process. The Girne Municipality Social Affairs Branch, together with GİGEM, have organised a program, within the framework of the rules and restrictions set out and taking into account the new conditions in this summer period, for young people who cannot find the opportunity to participate in various courses and activities while studying in their education life.

The workshops organised with the theme of “production” were prepared as an important investment to prepare young people for the future. The issue of production has gained more

importance especially in this process."

Due to the limited number of participants for free workshops, for information and registration call 0533 879 95 95 and 0392 815 07 68 until 13 July 2020.

North Cyprus Trevor's Tips: TRNC Health Insurance

By Trevor Hughes

The payment system for Temporary Health Insurance with Koop Bank has changed.

The new system requires you to pay for your Health Insurance online after signing up and applying for your appointment to attend at the main Police Immigration Department.

You will need to pay using a TRNC credit card. No other card or method of payment will be accepted.

During the payment procedure, you must be with the person who owns the credit card, because the system will ask you to enter a

verification code that will be sent via SMS to the phone number linked to the credit card.

If you are under 60 years of age, it is mandatory to have a blood test. Your online application will inform you of the clinic name, address, and contact number at which you must attend.

Your payment is made directly to the clinic and after 48 hours they will process the results directly to the Ministry of Interior for their processing.

This system is becoming easier as each and every week passes, although there is still some way to go before perfection is achieved.

If you have paid for the Health Insurance directly to the Koop bank, this payment will not be accepted by the Ministry.

If you have paid for the insurance go to the bank where the payment was made and ask them for a refund. The refund will take about four weeks to process.

Lambousa Archers in action at Pia Bella Hotel

Archery Federation Competition.

The Lambousa Archers Nick Gough and Mike Turner were in action on Sunday 27th June, competing in an event organised by the TRNC Archery Federation.

It took place at the Pia Bella Hotel in Girne, with Nick and Mike shooting in the Veterans (over age 50) Olympic Recurve category. Mike, an experienced archer of some considerable years, bravely decided to shoot barebow.

They shot 6 ends of 6 arrows at 30 metres. Despite the lack of training due to the lockdown and also the heat of the afternoon, they were both very pleased with their achievements, taking home gold (Nick) and silver (Mike) medals.

This is the first competitive event at 30 metres for the pair, but it certainly won't be the last!

If anyone is interested in learning more about archery, developing their skills or indeed competing, they are more than welcome to get in touch.

They meet weekly in Lapta.

KAR - News Update

3rd July

About 2 months ago we posted a video of **Elaine and Tobee** - who had been dumped up at the centre. He was in very poor condition and was extremely underweight. It took several months of treatment, love and building him back up before he could begin to look for his "forever" family.

Soon after we posted the video we were contacted by Fiona about Tobee.

She already had a pointer called Harry and was looking for a companion for him. They had lost their other much loved dog to old age and felt that Harry was missing him.

Visits were arranged to meet Tobee ... and ... yes you guessed correctly ... our Tobee had found his "forever family".

We were delighted to receive a few pictures and an update from Fiona.

" Settling in just fine. My husband comes back from walks in a pool of sweat though as he is slightly eager.

A few more days and we can hopefully let him run loose with us in the mountains."

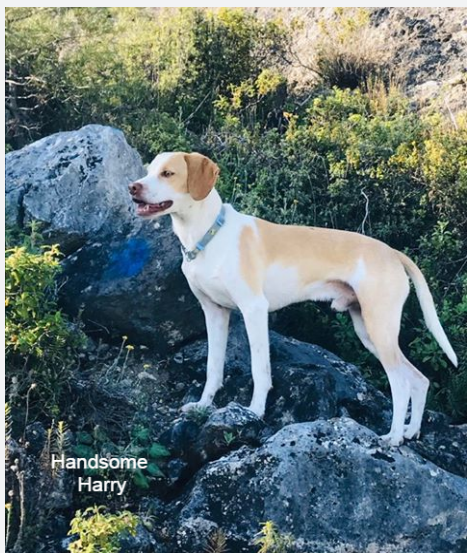

Tantalizing Tobee and Handsome Harry - here's hoping that they have many happy days together x

1st meeting sniffs

5th July

Here is **Smartie** having treatment for a snake bite on his front paw. He has now fully recovered thanks to the KAR center staff's speedy response and caring informed work of Petline vets.

10th to 16th July 2020

KAR - News Update

1st July

Star and Blue were a little wary of being indoors instead of outside. We can only assume that they had not been allowed indoors by the people who dumped them.

They were not wary of the toys though !!!

They are still looking for their "forever" family - is that YOU ? If so please call 0533 8694098 or email kartrnc@gmail.com.

Even if it is not please share this post as much as you can in the hope that their "special" person will see them.

5th July

Blue and Star - what little (well not so little!) beauties.

They walk ok on a lead, are well behaved in the car, love people and are ok with other dogs and cats.

They are smart girls and are also learning the basics - such as sit, come, stay.

They will have all of their vaccinations and we will arrange for them to be neutered when they are old enough.

If you can offer one, or both, a home we are sure that you will be showered with puppy love and affection.

Please contact us at kartrnc@gmail.com or call us on 0533 869 4098.

Does anyone recognise this dog ??

He was hit by a car yesterday (08/07) near Elexus Hotel.

He is wearing a collar but has no microchip. Approx 1 - 2 years old and is very friendly.

If you know who he belongs to or have any info about him please contact our office on **0533 8694098** or email kartrnc@gmail.com

One of our volunteers, **Corinne**, will have a stall at Saturday's market at the **Potting Shed** to raise funds for the dogs and cats at our rescue centre.

She will have collars, cushions, bags, glasses cases and lots of other goodies for you to buy. Items can be personalised and she will be taking orders on the night.

Please come along and support her this **Saturday 11th July between 6pm and 10pm.**

**KAR will be holding its AGM on
Wednesday 22nd July at the KAR Office in
Karakum at 2.30pm**

**All are welcome - however voting and
questions are limited to members only.**

10th to 16th July 2020

North Cyprus Trevor's Tips for July 2020

By Trevor Hughes

Temporary Residence

Please note, if you are under the age of 60 years, you will need to have a blood test. Payment must be made at the time of making your application and must be paid online. The system will not accept Debit or Credit cards unless it is a TRNC card. The system will only accept this and no other.

Fitted Kitchen

Readers may remember, on last month's issue of the news round, I wrote about a company that installs high quality kitchens. Since the publication, I visited a customer's home who had her new kitchen installed by this very same company.

The customer decided to accept the quotation and employed his services. The old kitchen was only a few months old but the supply and fitting was far from satisfactory and needed replacing by a reputable specialist. On viewing the new installation, the quality was of a very high standard and completed in the time quoted, all cupboards and accessories were fitted and the fitters were extremely skilled and tidy throughout the whole procedure.

At no cost to the customer, they fitted the old kitchen cupboards in his "man cave" which surprised and delighted the customer. A recommendation well worth considering if you are in the market for a new kitchen or bedroom cupboards.

Should you wish to contact this company, ring me on +90 533 844 34 03 because the owner speaks very little English.

Applying for a UK passport

The UK Government passport renewal web site is warning applicants to reconsider making their application at a later date because COVID-19 has caused a large backlog and they have fewer

staff to cope. This will help them to support those with urgent applications, who need their services most. Coronavirus (COVID-19) – in line with public health guidance, we are working with fewer staff. It will take longer than usual to process your application so please bear with them.

Notary Stamps

If you need documents rubber stamped by a Noter, say for the first time driving licence applications, for instance, be aware, before your documents are authorised, check the cost before he/she undertakes the stamping procedure. There is no set amount charged and they will get away with whatever they can. One of our customers went to a notary for document authorisation and was charged 100TL for each page. Totally outrageous!

Spare Wheels

When purchasing a car from a used car dealer, before you hand over any money, make sure you are fully satisfied with your purchase, including whether or not it has a spare wheel. The reason I bring this to your attention is because there is a company selling second hand cars in the area, who sell to customers and some of their cars do not have a spare wheel. (Just what you need when the time arrives.)

Upon questioning the salesperson, his reply was "all cars purchased from the UK do not come with spare wheels. What lovely aftercare sales service they have!"

Online Road Tax Application

Please keep in mind that while using the online road tax website,

you will need to use either your laptop or desktop, because if you make an application on either your phone or iPad you will only get half the application page. This will prevent you from completing your application.

Selling A Car

When buying a used car from a private source, the procedure for the logbook update has changed. The TR2 Form which was used before is no longer needed. As indeed there is no requirement for a Muhktar's letter. The new procedure is, the buyer and the seller, together with the relevant car documents and passports plus copies, must attend the tax office and make the vehicle title change together. If the seller is not in the country, the buyer will need to get a Notary's letter informing the Tax Office that this person is not in the country. This is the only way you can exchange Title Deeds from now on.

Facebook

We have now got a Facebook page called Insurance Enquiries where you can read on a more daily basis about current events and general information.

If you have any questions you want answering you can use our Facebook page for quick service by posting your questions or message us by using the Whatsapp button on the page.

Search for Insurance Enquiries (see link at end of article) or @trevorstips411 and don't forget to like the page and turn on notifications.

continued

Trevor's Tips - July 2020

Contactless Payment

More than ever before, contactless payment is getting more and more popular in retail outlets. We will soon become a cashless society and those 'die hard' amongst us who hate using credit cards will need to conform.

I needed to fill my car up with petrol the other day and instead of putting 100TL in the tank the

attendant filled up the tank as requested. Fortunately, I was paying by credit card so no problem, and yes the machine payment was by way of the new contactless system.

Be aware, in the wrong hands and your card will be used for the purchase of small items.

Bayram Holidays**Monday 20th July –**

Peace and Freedom Bayram (Government offices and Banks will be closed.)

Thursday 30th July –

Kurban Bayram Eve (Government

offices and Banks will be open for half a working day)

Friday 31st July – Monday 3rd August

(Kurban Bayram - Government offices and Banks will be closed.)

ARUCAD Academic Programs approved by YÖK

Arkin Creative Arts and Design University (ARUCAD), the only foundation university of Cyprus and the region focused on art, design, and communication received approval from the Higher Education Council (YÖK).

The YÖK Presidency examined the application made by ARUCAD, and approved the academic programs of the University. The relevant program ARUCAD 2020 Higher Education Institutions Examination (YKS) taking place in Higher Education Programs and Quotas Guide, will begin with the admission of some students from the Republic of Turkey.

President of ARUCAD Board of Trustees and President of AREKAV VYK announced that they completed the foundation process last May and transferred to the Arkin Education, Culture and Research Foundation (AREKAV). Dr Sinan Arkin made a statement on the subject, "ARUCAD, which started its education life in the 2018-2019 Academic Year, is the only subject-oriented university that combines the art, design and communication fields of Northern

Cyprus and the region under the same roof.

ARUCAD, which has modern educational opportunities with its state-of-the-art workshops, studios and laboratories, will continue to invest in the island and the region in the coming period. ARUCAD, which started its education with the vision of being a leading educational institution in the region, is taking firm steps towards the future with the approval of YÖK. "

Providing art, design, and communication focused education, the University's Plastic Arts, Photography, Ceramics, Film Design and Management, Architecture, Interior Architecture and Environmental Design, Visual Communication and Design, Media and Communication Departments will be included in the 2020 YKS Higher Education Programs and Quotas Guide.

Applications for the 2020-2021 Academic Year continue.

Due to the Coronavirus pandemic this year, ARUCAD offers 75%

scholarship guarantee to Turkish citizens who have completed their high school education in the TRNC for 4 years without interruption, and candidates can increase their scholarships by up to 100%.

Applications for all departments of the University, which offers wide

scholarship opportunities, continue.

Poets Corner**Poem by Nick Vye - Sanctuary****SALVATION**

At the beginning of God's creation,
There came a time of relaxation,
When there came about a proclamation,
Regarding one's earned salvation,

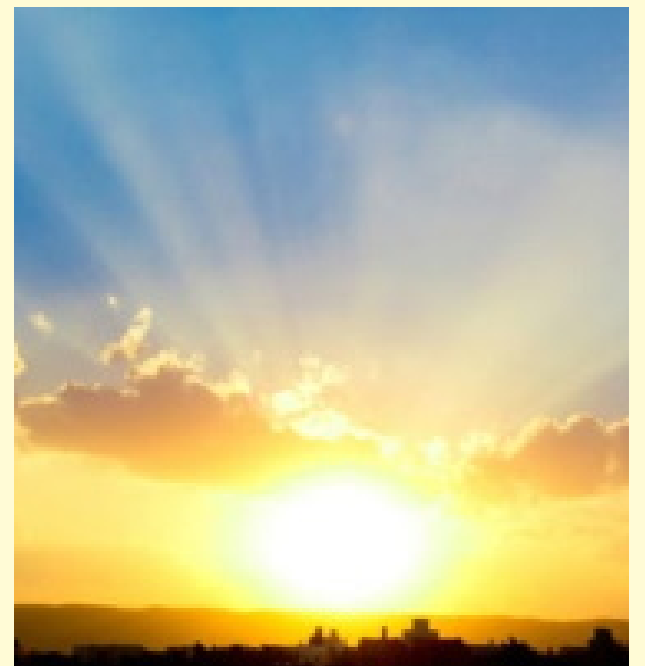

You couldn't be heaven bound,
Without the secret word or sound,
When you would lift off the ground,
And heaven would be duly found,

Then all at once you would recall,
The times before, when you did fall,

In lifetimes that were not a ball,
When most things were due to your appal,

So let us lift up our hearts and pray,
In each new beginning of the day,
When travelled further along the way,
With debts to clear and deeds to pay,

Is your salvation close at hand,
When travelled across the many lands,
Preaching as a one man's band,
Sometimes lost in sinking sands...

10th to 16th July 2020

Girne Municipality - Food Inspections & Covid-19 Control

In June, a total of 462 operations were subjected to controls on hygiene and Covid-19 measures.

Girne Municipality, health and hygiene controls; In food-related enterprises, the cleaning of general work areas, hygiene and Covid-19 measures taken increased the supervision of the personnel's hygiene measures and food safety elements. In addition to the warnings given to the enterprises in order to eliminate detected non-conformities, in determining the situations that endanger human health in the enterprises, closing penalties were applied to the companies.

The activities of the following establishments, which have been found to have significant deficiencies in the area of operating permit, health certificate and general hygiene, which have been detected in the past month, have been stopped and sealed: Acıktım Susadım - Dolunay Cafe & Bar - Elida Beauty Salon. These enterprises will be allowed to operate after the hygiene deficiencies are completed.

In addition, 6 companies with hygiene deficiencies were also given notice of closure:

Sülkem Simit Evi - Canciğer Restaurant - Palmi Börek - Gazoz Buffet - Trypiti Restaurant - Yok Yoktur Market.

Products not suitable for sale were seized from shelves during shelf inspections.

Information was given by Girne Municipality, during the controls that the following measures were taken;

Trypiti Restaurant: 2.20 meatballs, 1kg octopus, 4kg fish, 1.20kg peach kebab, 2.5kg chicken products without date label, and not stocked correctly.

Canciğer Restaurant: : 8kg chicken was confiscated because of unlabelled and not stocked properly.

Döner Box Restaurant: 140 pides were confiscated because they were not stored under suitable conditions.

Turgay Market: 3 sandwiches were seized for destruction due to the sale date on the packaging.

Enn Biber Döner: 15kg chicken was confiscated due to being unlabelled and not stocked properly.

Enterprises were fined a total of 1,768TL

Due to general cleaning - hygiene deficiency, outdated products in shelf control, and lack of health scorecards, fines totalling 1,768TL were given to the enterprises. A total of 462 enterprises were visited during the audits regarding the COVID-19 measures that businesses should take. A total of 167 enterprises were warned for their deficiencies; It has been determined that COVID-19 measures are being implemented in other enterprises.

Health Branch Supervisor Naile Soyel said "Due to the Global Pandemic period we live in, human health and hygiene issues have gained much more importance. COVID-19, although not a food-borne disease, requires that people working in food-related businesses

provide the highest level of personal hygiene measures. As a municipality, we continue the general hygiene controls of the enterprises with care. This process is important for the health of our city people as well as our society as a whole."

Mayor of Girne Nidai Güngördü said : "Within the framework of the prevention of COVID 19 Pandemic, we have been active throughout our city since the first day the epidemic was detected in our country. As a municipality, we continue our intensive efforts to protect the health of our people with many applications we have implemented. Food controls; In this context, it is carried out with a focus on scientific principles and also human health. Our sensitivity is slightly higher due to the pandemic. For this reason, I invite all our tradesmen to cooperate, to take necessary precautions and follow the rules, and wish my respects to all our people with healthy days."

Hope 4 Pets - News Update

Elizabeth Stowell - October 2019

FURTHER UPDATE

Emma Eminsoy had to take all 5 kittens to the vet as an Emergency, all have been really poorly and sadly one kitten has died. The remaining 4 kittens have been on daily drips and special food, mum cat has been neutered, the vet bills are mounting and are over 4,000tl for this little family, if anyone could donate towards treatment you can do so using: H4P have provided cat/kitten food for the remaining adult cat and the kittens, kindly taken over to Cansu by Stephanie Harrison-Croft. Also H4P have supplied worming/flea treatment for all the cats/kittens, kindly taken over and given Emma Eminsoy. The adult cat will be neutered by H4P as soon as possible. The kittens are still in need of forever homes.

UPDATE

Mum cat, now called Lemon, has been picked up and taken to the vet by Emma Eminsoy, she has a spinal trauma, and will have daily cortisone drips. Anyone wishing to donate to Lemon's treatment can do so via the usual ways.

I have been asked to post on behalf of Zekiye Cansu Hakperagi, she has been feeding one of the street cats in her area who has kittens, unfortunately the mum cat has been hit by a car, and is now partially paralyzed, she needs transport to the vet, Tunç Öncan. If anyone can offer her transport please get in touch with Cansu direct on 0533 826 28 99. She is in the Lapta area. The cat is proving difficult to trap, as it is in pain. We are not sure when the transport will be needed, again please liaise with Cansu. Initial consultation at the vet for the cat will be funded by H4P.

Mum cat has been picked up by Emma Eminsoy and taken to the vet, she is on daily cortisone drip, she has a spinal trauma, mum cat now called Lemon, will stay with Emma, who will take her to the vet daily, let's all hope that the drip works, thank you so much Emma, once again you have come to the rescue of an injured animal x

If anyone can help financially to support this family we would appreciate it please.

The smallest and most poorly kittens haven't survived despite all the treatment, they were just too small and weak to make it. It's heartbreaking when they fight so hard to live. They received every treatment possible and 24 hour care but their bodies just couldn't cope. Three now remain and we are hoping they will pull through but as we know kittens circumstances can change in a heartbeat. Their treatment continues at home with me. If you can help with a donation, however large or small, it will help towards the sizeable bill we have already amassed and is ongoing.

The spayed mom has been returned to Lapta now and Lemon, suffering from spinal trauma, continues to move in the right direction (no pun

intended!) with her slow recovery and she will remain with me. Thank you.

Update :-

Lemon the adult cat hit by the car has recovered well. She still has a little difficulty with walking as a result of the trauma but is easily 85% better than she was.

The surviving two kittens are doing well. One is very small for age but eats, drinks and plays with sibling and is full of energy.

5th July

Two kittens were neutered this week

10th to 16th July 2020

Hope 4 Pets - News Update

Emma Eminsoy 2nd November 2019

Clovis the surviving Selin Villa kitten has been doing really well and completed vaccinations etc. Playful typical kitten. His appetite dropped off yesterday and he started breathing heavily. He is a very poorly boy today. He has had Xrays and he has a build up of fluid in his chest that is pushing his heart to one side.

Clovis is home now resting. He will be back at vets tomorrow for another ultrasound to see if the fluid has reduced and drip with antibiotics etc.

3rd November

Clovis had a reasonable night but deteriorated whilst at the vets today. He had to have the fluid drained. Hopefully he will have a more comfortable night now.

11th November

Clovis had a check up today. Doing well. Will continue with his course of antibiotics until Friday where he will be checked again.

15th November

Ultra sound and blood test all looking good
Antibiotics at home for a week and then a check up.

Clovis is doing really well and all back to normal.

Clovis is coughing and has an infection. Having daily injections. I suspect he is always going to be susceptible to these. But considering the sad fate of his siblings he is the warrior of the family.

6th July

Thank you so much for the continued support from Hope 4 Pets this gorgeous boy is now neutered and fully inoculated ready for adoption.

Emma Eminsoy 5th July

At the beginning of last month I posted about a cat that I managed to trap and get to vets with a long term open leg wound (and then we found he had awful teeth problems too) Well the summary update is as follows :-
His teeth were operated on and that all went well. His leg wound was cleaned and stitched but as he is extremely aggressive after a week of daily confrontation every time they needed to give medication etc his stitches burst. The vets discovered he still had an infection and had to wait to send a sample to the lab to test to enable a specific antibiotic to be given.
This was done and the antibiotic is being given every day - still with daily battles as he remains very aggressive. It would seem their determination is now paying off as the wound is healing really well.
Thank you to Belgi, Ozkay and Basak for your perseverance (and bravery with this rather wild boy!)

A Cyprus grandfather and his famous camels

By Ismail Veli....

This a tribute by **Aysh Nafi** a member of the Facebook group Frozen Cypriots to her grandfather Deveci Hussein. A way of life we can only see in the old photos of Cyprus. Thank you Aysh for sharing these amazing photos of your grandfather. I have no doubt he is looking down and smiling from heaven in keeping his legacy alive.

This is her story about her grandfather, may he Rest in Peace.

"My first encounter with the camels that belonged to my dede was in the summer of 1973. I was seven years old. I had never seen such huge animals before, growing up in North London there wasn't many of them around.

The day we arrived in the village I remember my late grandmother Ayşe saying dede was working he was carrying goods on his three camels to another part of Cyprus. I didn't see him for days, but when he finally arrived he first made sure his beloved camels were fed watered and settled after their long journey.

The next day I was introduced to the camels. My dede made one kneel down then put my sister and I on the camel's back. Once he finally stood up I felt like a giant had picked us both up we were so high up nearly reaching the hot sunny sky.

Over the years we visited Cyprus many times, each year watching dede with his beloved camels. Dede had one eye I asked my mum why and she said he was reaping saman (hay) for the camels to eat and a thorn went in his eye.

I knew that my grandfather wasn't a wealthy man making ends meet carrying goods travelling around Cyprus. My mum was one of 9 children 7 girls and 2 boys, I'm sure they didn't have much but according to my mum, they had a togetherness that can't be bought with any amount of money.

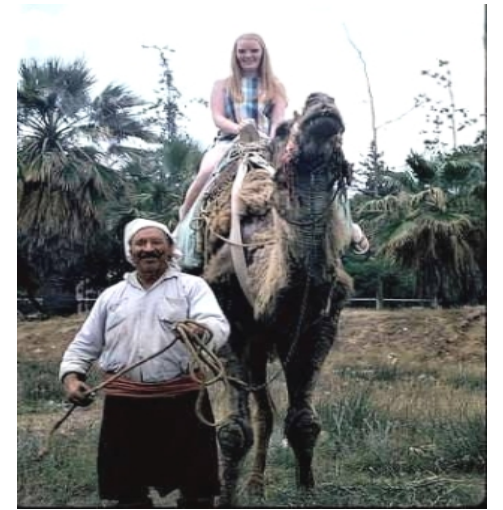

Dede was born in the village of Singrasi, probably in the year 1900 he was 82 when he passed away in 1982. During his lifetime he appeared on postcards, he even appeared in a short BBC2 film of Cyprus in the early 1970s. I've typed in Google - camels in Cyprus and his pictures appear.

As the years went by the three camels grew old, sadly one passed away, he still had two more he would let the tourists ride on the camels and take pictures in return for a pound that's how he made his living I guess. One day in the late 1970s I remember my mum receiving a letter from my aunt in Famagusta saying dede's other camels had died. I remember my mum being so upset, crying, she had grown up with those creatures, I suppose it would be like losing a family pet. Everyone knew him as Deveci Hüseyn without them he was lost. In 1980 dede had a stroke when I last saw him in front of me was a frail old man, a man that once was so jolly and full of life now sitting in a chair watching the world go by. Every now and then he would sing a Turku (Poem, Biima) song in Greek we would all sit and smile when he smiled.

My baby sister only two at the time, taking his walking stick away from him then saying al dede al. (take it dede, take it)

Shortly after one of our visits to Cyprus, we received a letter saying my beloved dede had taken a turn for the worse, mum tried to get a flight back to see him for the last

time, but didn't make it. He passed away on 7th August 1982. Mum used to say he died of a broken heart. He is buried in his village next to his brother, his wife Ayşe and recently my mum in 2010. I recently had his gravestone renewed, his picture on marble smiling happily with his camels."

continued

Another memory of Deveci Hussein

Deveci Hüseyn. Photos courtesy of Aysh Nafi

In 1970-71 the late singer Barış Manco came to Cyprus. On his visit he visited the Namik Kemal prison museum in Famagusta (seen standing by the door) and followed this with a camel ride which may have inspired him to write his famous unforgettable song "İste Hendek İste Deve" (Here's a ditch here's a camel)

In 1971, Barış Manco was no ordinary singer he was an internationally respected singer whose songs were translated into

English, French, Japanese, Greek, Italian, Bulgarian, Romanian, Persian, Hebrew, Urdu, Arabic, and German to name a few.

This then is the great man who may have been inspired to write his famous song "İste Hendek İste Deve" of Huseyin Deveci, a simple Cypriot Camel drover whose legacy has lived on in many photos of the past way of life buried into the annals and heart of our beautiful island. For that, we are eternally grateful.

Editor's Note:

We would like to thank Aysh Nafi and Ismail Veli for sharing this fascinating article and photographs from the Facebook group Frozen Cypriots which currently has a membership of 13,864.

Risk of COVID-19 with entry into Jersey and Northern Cyprus

By Roger Bara...

Squeaky bum time for both Jersey and Northern Cyprus

A week ago, the following article of mine was published in the Jersey Evening Post, for which I write a fortnightly column

As I assembled these words, the two islands on which I've lived for most of my adult life, were about to embark on what I suggested would be their most challenging and nerve-wracking period of time since the pandemic arrived earlier this year; the opening of their respective borders.

Despite having vastly different methods of dealing with Covid-19, Jersey and the Turkish Republic of Northern Cyprus are about to open their borders at around the same time. And the response of both sets of inhabitants seems polarised. Many will be delighted at the opportunity to get back to some form of normality, while others are horrified at the potential for the virus to regain a stranglehold.

Here in the Mediterranean, every single ex-pat to whom I have chatted, and indeed many locals, including the medical profession, want the borders here to remain fully closed. Period. Of course, they know that can't happen but consider for a moment why they feel like this.

We locked down almost straight away – no fuss – and I mean completely locked down – the airport and sea ports all shut, and the borders with South Cyprus closed. At the same time, the government here delivered strong curfew instructions, which, if ignored, were dealt with by inflicting severe penalties. It worked. While Jersey can boast this week of having no positive cases, (very well done by the way), as at 1st July North Cyprus had not had one for almost 80 days. Why spoil that almost perfect record by allowing the virus back in?

We all know why. Both governments have to balance keeping residents safe with simultaneously having to allow, somehow, the horribly bruised and battered local economies to have the opportunity to prosper again. What an absolutely horrendous decision to have to make. Just think – unless we lockdown forever, some people will die. It's gross. A woman on a ferry from Turkey to Cyprus, was reported to have tested positive on arrival. There were 350 people on the ferry. The consequences would have been enormous. She was subsequently found to be negative. The lesson though is clear – one mistake, that's all that's needed.

What are the islands doing about it? Jersey's answer to protection appears to be testing on arrival, with no need to isolate, and no follow-up test.

Allow me to tell you what will

happen here if you fancy a trip to come and see us at Chez Bara. As you will have to travel via the UK, which our government deems particularly unsafe, you simply won't be allowed to travel here. But when they eventually allow you in, you will, until further notice, have to serve several days in a government-controlled quarantine centre. A nice hotel, but you won't be a tourist. You will be a prisoner. Not allowed out of your room, no one allowed in. If you don't like the food left outside your door, tough. No reduction of sentence for good behaviour.

I know this because I am in regular contact with a group of people who, having been stuck in the UK for months, finally got back to their island of residence a week ago on a special repatriation flight. This is how it is. And, believe it or not, they are not complaining. They will be back in their home in a few days, and safe. For now.

“British Airways has just restarted its Jersey route.”

10th to 16th July 2020

continued COVID-19 Jersey and Northern Cyprus

It's not difficult to image some Jersey residents, reacting to Wednesday's JEP headline "No active Covid cases for the first time since lockdown", thinking: "OK, those rules and regulations still in operation are not necessary; after all the deprivation, let's party!" Except, of course, as most will be aware, the virus has gone nowhere. It is still effectively all around us. Waiting for a mistake, waiting for any opportunity to spread.

I think residents of both islands can be reassured somewhat that no-one is likely to travel if they are sick. You don't generally travel if you're ill. Yes, they might have the virus and not know about it, but that should be picked up on arrival and dealt with. As the World Health Organisation says, we need to learn to live with this virus until such time as a vaccine is available, and goodness knows when that will be.

But in the meantime, we all wait with bated breath to see what will happen when the influx of visitors start.

Both islands should be rightly proud of their zero positive cases right now. But the sad fact is that we all know that someone will slip in with the virus undetected, and we all know that not every resident, on either island, will stick to the rules and regulations that still apply. And that means only one thing - that zero figure won't be zero for very long. Squeaky bum time indeed.

On 9th July 2020, the TRNC learned at its cost that new COVID-19 infections are never far away!

Disregarding balance of sides will not create atmosphere of trust

Aksoy: "Steps disregarding the balance between the two sides will not help create an atmosphere of trust"

The Spokesperson of the Turkish Ministry of Foreign Affairs, Hami Aksoy, made a written statement in response to a question regarding the US decision to provide International Military Education and Training (IMET) to the Greek Cypriot Administration and said:

"The US has announced that it will provide International Military Education and Training (IMET) to the Greek Cypriot Administration in accordance with the 2020 fiscal year appropriations act.

We support the position of the Turkish Republic of Northern Cyprus authorities on this issue.

We would like to remind our ally, the US, that equal treatment of both sides on the Island is a basic UN principle.

As we have repeatedly emphasised previously, this and similar steps do not contribute to the efforts towards the settlement of the Cyprus issue but, on the contrary, lead to strengthening the intransigent attitude of the Greek Cypriot side.

It is obvious that steps disregarding the balance between the two sides will not help create an atmosphere

of trust on the Island, and ensure peace and stability in the Eastern Mediterranean."

SPOT report of dead Turtles in the Boğaz-Kalecik region

Readers mail...

Damla Beton ..

Northern Cyprus Turtle Protection Society (SPOT).....

During the last week, six Caretta and two green sea turtles arrived at the shores of Iskele and Boğaz. We found that five of them had died by drowning.

According to the estimates of fisheries research conducted within the Northern Cyprus Turtle Protection Society (SPOT), thousands of turtles die every year in fishing nets. The most fatal period of the year is in the months of May and June, when fishing increases, settled turtles are active and the turtles that migrate to our island from other countries approach our beaches to lay eggs.

Turtles take at least 30 years to reach adulthood. In the limited time they come to Cyprus for feeding or breeding, they die in fishing nets which is causing their numbers to decrease rapidly.

So far during 2020, 139 turtles were recorded by SPOT which were either washed up dead or caught in fishing nets and half of them (72) were recorded in the last two months. But even more worrying is that the three turtles found in the Boğaz-Kalecik region this week were killed by dogs roaming on the beach.

SPOT is in cooperation with professional and amateur fishermen and works with the Livestock Department, Environmental Protection Agency,

fisheries representatives and other stakeholders to develop sustainable fishing.

In this context, we invite all fishermen to comply with national laws so that we can have healthier seas.

According to the law, in the period we are in:

** no fisherman can throw a net from 10m to shallow

** amateur fishermen cannot use fanned fishing lines

In addition, we ask the TRNC Coast Guard agency to closely monitor fishing activities in shallow waters from 30 meters, where sting fishing is most common, and especially to increase controls between 05.00am and 09.00am in the morning and encourage fishermen to enforce the law. Only in this way can we reduce turtle deaths.

Even more importantly, nets are not left in the water for longer than 4 hours when fishing in shallow waters. We know that many amateur and professional fishermen drop the nets into the water in the afternoon and collect them the following morning. The fishing, which is applied in the shallow waters where the turtles are dense, leaving the nets in the sea for a long time, causes the death of many turtles. We ask them to support their own initiative on this issue and to fish in such a way that they do not keep the nets in the water for more than 4 hours. Only in this way can our seas become healthier.

Sea turtles are the mascot of TRNC. Moreover, most fishermen recognize that they have a right to life, and even appreciate their valuable presence in their habitat as gardeners of our seas.

Moreover, when the Caretta, named Noga, which was healed and rehabilitated in Israel, visited our Famagusta beaches, it caused international sadness.

We urge all interested people and especially fishermen to contact us directly about the dead or injured turtles they have observed. Thus, we can take the necessary measures to protect and keep them alive. Contact us on 0548 8868684 to report other rare sea animals such as sea turtles, sharks, seals and dolphins which have been observed as being in difficulty.

We would like to thank all our supporters of the Northern Cyprus Turtle Protection Society.

10th to 16th July 2020

"Earthlings and Roots", "Worlds and Roots" Exhibition

Within the scope of the "Encouraging Youth to Art" Project of the Prime Ministry's Anti-Drug Commission, the "Earthlings and Roots Exhibition", which is composed of the works of a young person, and which is highly recommended, opens for art lovers in Girne Municipality Art Gallery on Thursday, 09 July at 17.00.

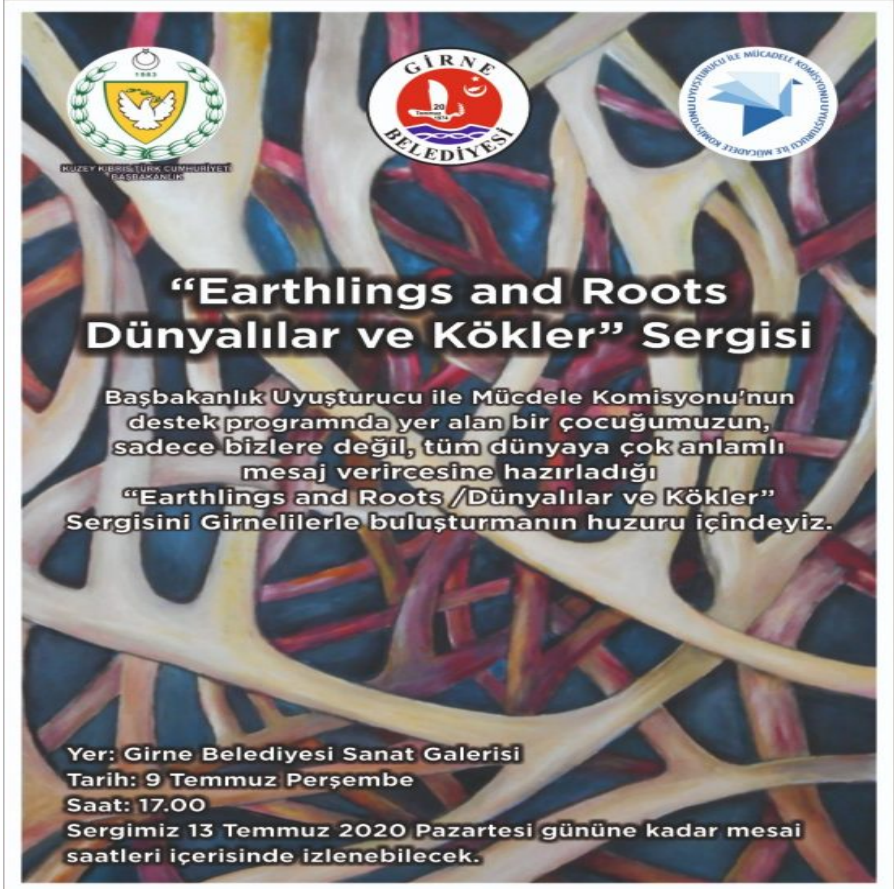

All of our people are invited to the opening ceremony.

In the information given by the Municipality of Girne, the exhibition will be able to be visited during working hours until 13th July 2020.

Mayor of Girne Nidai Güngördü pointed out that the Anti-Drug Commission has carried out important projects on combating addictions in the country and expressed his satisfaction with the cooperation.

Güngördü invited all people and art lovers to the exhibition opening, saying that he was happy to bring the exhibition to the people of Girne, which is a healing power of art, a good example of directing young people to culture and art.

Tulips - Postponement of Events until 2021

POSTPONED

We had hoped to run this event in Sept/October but with so much uncertainty still about it has been decided that it would be better to leave this until April 2021.

We are in the process of refunding all entrance fees and you should be hearing from the organisers soon.

We are sorry this has happened as this event is always such good fun!

If you do not then please phone: Sue 0542 854 8714

The Live ABBA Tribute Show

Sadly, due to the COVID 19 Coronavirus, travel restrictions and the limitation on the amount of guests we can have at the Girne Ampitheatre we have had to postpone this event from 19th September 2020 to 23rd June 2021(hopefully)

We will confirm the date and details as soon as we are able to.

Qigong Home Training with Tarik Tekman week 14

There is a 15 week Qigong Home Training program and Tarik also runs an online class on Tuesday and Thursday every week.

Following is Tarik’s program :

The first video of 15 weeks long Qigong Home Training is live now as below, Teach yourself Qigong with this 20 minutes video. If you like it, join the online live classes on Tuesdays & Thursdays. Every week, I will release a new video on Monday morning and continue with Tuesday & Thursday live online classes. There is also the Turkish version of these videos on my website.

All the details you need are at:
<https://tariktekman.com/en/home/>

15 weeks Qigong training with videos, practice cards and Zoom online classes:

Download and test Zoom for online classes.

IF ZOOM ASKS YOU TO ENTER A PASSWORD, ENTER: **home**

Mondays 08:00: Video of the week is released. Practice with that video.
Tuesdays 10:00-10:40: Online Class
Thursdays 10:00-10:40 Online Class
All hours are Cyprus Time (UK +2 or CET +1 hour)

All other days practice with the same video and next Monday move on to the new video.

The class of the last week will be on Wednesday, 15th July – on the 100th day of the training.

Every Monday separate English & Turkish videos are published. Online classes are bi-lingual.

Online classes do not repeat the details already covered in the videos but include deepening the exercises, corrections and adjustments,

answering the written questions, and additional practices.

Send questions to tarik@tariktekman.com to be answered in the next class.

The training is donation based. Donate any amount with any frequency (just once, weekly, monthly etc).

Join a Class: <https://tariktekman.com/en/home/>

TRNC Football results and tables at 1st July 2020

By Richard Beale..

Congratulations to Mağusa Türk Gücü who became the first club to win silverware in this long stop go season. The Famagusta club have now won the Super League title for the second consecutive season. Needed just a point to secure the Championship they achieved that drawing at home 3-3 with Yeniciami.

K-PET SUPER LEAGUE RESULTS

Football match dates for 10/11/12/15 and 16 July

By Richard Beale.....

Again plenty of local football being played this weekend on Friday Saturday, Sunday and Wednesday and Thursday Kick-off time for most matches has been brought forward to 5-45pm, matches that start at 8-00 pm of course are being played under floodlights.

This is LIVE FOOTBALL with atmosphere, no sterile empty stadiums, come along and sample it.

Many matches to choose from but the outstanding fixtures I have marked with *****

ENJOY YOUR FOOTBALL

Esentepe's "Perfect Storm"

Result : ESENTEPE KSK 2 YALOVA SK 0

By Richard Beale....

Saturday July 4, 2020: K-Pet League 1 : Esentepe Erdal Barut Stadium.

Esentepe Coach Kiliç Ali Kahraman won't agree with me as he always wants more from his team, but the performance that his side put in against Yalova was to me "perfect, I could find no fault with it."

Saturday's crucial match was deservedly and clinically won by Esentepe who controlled the match from start to finish. Make no mistake about it Yalova, who are in 4th place, are a very good team, having the right mix of powerful and skilful players but they were made to look ordinary by a hungry Esentepe team that did not allow them to settle. Esentepe harried, chased, closed down their opponents in what was one of their best performances of this long strange season. Three vital points means Esentepe in 8th place have moved further away from being dragged into a relegation playoff spot, indeed they have given themselves an outside chance of challenging for a promotion play off place.

Esentepe Goalkeeper Onur was only brought into action on two occasions such was Esentepe's dominance. In the 12 minutes following a Sergülen free kick he did well to block a close range effort from a Yalova player. It was not until deep into injury time that a long Yasin free kick caused him some anxiety before he finally

pushed the ball over the bar.

Yalova giant of a keeper Kıvanç who must be over 2 meters tall was kept busy for most of the match noticeably pulling off a fine diving save from a shot from Şükrü in the 21st minute.

On a very warm July evening, a large crowd enjoyed Esentepe's play particularly in the first half when some of their moves were breathtaking, intricate passing, players running into space.

Esentepe took the lead in the 20th minute following a fine move, Emre Mutlu as he did all afternoon broke up a Yalova attack and found Şükrü on the left, leaving defenders in his wake the youngster went on into the area before finding another even younger player HÜSEYİN DEYNEKLi who slotted the ball past Kıvanç with all the aplomb of an experienced striker to register 2 goals in 2 games for him. Note the ages of Şükrü 17 and Hüseyin only 16, Esentepe have some outstanding and exciting youngsters on their books. **1-0**

Another fine Esentepe move in the 30th minute saw Mahmut surge upfield playing a 1-2 with Hüseyin and putting in a fierce shot that just cleared the Yalova crossbar.

HALF TIME SCORE 1-0

The opening 10 minutes of the second half was quiet, with Yalova trying desperately to get on level

terms, their playmaker Gökan Titiz was trying his best but was always being hounded by Esentepe's Yakup and Emre in midfield.

Esentepe secured the match in the 60th minute, a Yalova free kick was cleared and Esentepe broke quickly on the right led by Hüseyin Deynekli and finally Yakup squaring the ball across to Eray bearing down on goal who had his legs whipped away from him by Sergülen. ERAY picked himself up and scored with a "stop go" penalty committing goalkeeper Kıvanç to go one way while slotting the ball home the other way. **2.0.**

In the final 30 minutes, Esentepe controlled the match any chances created by the opposition were quickly dealt with by the Esentepe central defenders Şahin and Nersin.

ŞAHIN who is not tall for a central defender was outstanding, he won every cross in the air, was my "Man of the Match". He was closely followed by Nersin who

had a great game as did Emre Mutlu who had his best performance in an Esentepe shirt, operating as a defensive midfield player.

Upfront forwards Eray and Hüseyin ran and ran harrying the Yalova defence.

The whole team supporting these players it was an outstanding team performance a "**perfect storm**".

Finally a word for the referee Mr SERHAN SIMŞEK who had an excellent match, you hardly noticed that he was on the field and of course well supported by his linesmen.

FULL TIME SCORE 2-0

Mormeneşke See Red As Esentepe Win Crucial Match

By Richard Beale..

Result : Mormeneşke GBSK 0 Esentepe KSK 3

Wednesday, July 8, 2020. K-Pet League 1 : Cemal Bales Stadium

Mormeneşke had two players sent off in the first half, which was a fiery bad tempered affair. Even with two players short Mormeneşke were the better of the two teams in the first half, it was only after the interval that Esentepe took advantage with their superior numbers as the home team tired.

With the season re-starting so late, the summer temperatures are hot as was the first half of this match with tempers on a short fuse, there were stoppages galore and eventually two Mormeneşke players paid the price and saw red cards.

In the 23rd minute Mormeneşke Ahmet Demir reacted to a Emre Mutlu challenge, got up and pushed the Esentepe player to the floor, Emre theatrically made the most of it giving referee Zekai Töre no option but to send Ahmet off.

This lit the fuse and there were some hard and tough challenges going in with Mr Zekai being kept busy booking a number of players.

Hotheads were still around when just before the break Mormeneşke lost their second player Emre Kuvvetlişahin who apparently swore at a linesman and was dismissed.

Mormeneşke only have themselves to blame as they were much the better team in the first half with Esentepe indebted to their goalkeeper Onur Özbıngul for keeping them all square at the break by pulling off some fine saves.

In the 6th minute ex Esentepe striker Tacettin Kose brought a diving save from Onur with a low shot.

Esentepe then had a little purple patch firstly Eray had a free kick, that went through the wall that the Mormeneşke goalkeeper Mehmet Salih saw late, but managed to deflect the shot away for a corner with his foot.

Then Nersin sent in a pile driver of a shot then Mehmet palmed away for a corner.

After the Ahmet sending off, Mormeneşke really had the "bit between their teeth", after 25 minutes following an Gökay free kick Ömer got in a glancing header that Onur did well to parry and also deflecting the follow up shot for a corner.

After 32 minutes Onur again produced a brilliant diving save again from an Ömer header. The match continued at a frantic pace Esentepe were fortunate to go into the break on levels terms and Referee Mr Zekai must have been relieved to blow the half time whistle though I must say I think he handled the first half well. **HALF TIME SCORE : 0-0**

Esentepe made a double change during the break replacing Gürkan Demir and Mustafa with Kaan and Uğurcan.

The change paid dividends immediately as in the 47th minute KAAN GÖRNEÇLİ gave Esentepe the lead after an Eray shot was blocked and he was on hand to sweep the ball in. **0-1**

In the **56th minute** it was that man KAAN GÖRNEÇLİ again scoring this time direct from a free kick, centrally just outside the box his kick going over the wall and beating the diving Mehmet Salih. **0-2**

A happy Esentepe team celebrate their goals!

With the setting sun came lower temperatures and thankfully the aggression of the first half was left in the dressing room. Esentepe were taking advantage of their numerical superiority making good use of the flanks but frustratingly were constantly being given offside.

Mormeneşke were not ready to throw in the towel yet as Onur continued to frustrate Ömer, this time with another diving save.

70 minutes and a third goal for Esentepe with another goal from 16 year old HÜSEYİN DEYNEKLİ, his third in as many games, this time being sent through he rounded the advancing Mehmet Salih held off another challenge and scored. **0-3**

By now Mormeneşke were looking drained the pace and the tempo had gone from the match it was almost like a practice game, Esentepe continued to have control of the game but could not score again.

For Esentepe with this win they have retained their League 1 status for next season, they can now relax knowing that the place is secure. With 3 games remaining they are 2 points behind 6th place Maraş who are in a promotion

play off place. If Esentepe are serious about a promotion play off place then it will down to them and Maraş for that spot.

I made Esentepe Goalkeeper ONUR ÖZBİNGUL my "**Man of the Match**", his crucial saves in the first half kept Esentepe in the game. Veteran defenders NERSİN and ŞAHİN also had sound matches helping Onur keep a clean sheet.

ESENTEPE TEAM : ONUR (gk) 8: Mahmut 6, (Mustafa Soytürk 84), Şahin 7, Nersin 7, Gökkan Demir 5 (Uğurcan 46 6); Şükrü 6 (Hürkan 64), Emre 6, Yakup 6, Mustafa 5 (Kaan 46, 7): Eray 6, (Orhan 84) Hüseyin Deynekli 7.

ESENTEPE Replacements not used ; Gorkem (gk), Ulas (gk), Salih, Semih,

Mormeneşke TEAM : Mehmet Salih (gk); Ahmet Aritas, Ahmet Demir, Emre, Fetin (Mustafa Ogur 71), Aykut, Gökay (İsmet 80), Sabrı (Mustafa Tekpınar 64), Halil (Tugay 64), ÖMER, Tacettin.

ESENTEPE NEXT MATCH :
